* Reservoir Permit No. R 5492

CERTIFICATE NO. 44798

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, Ernest Behrman (Name of Applicant)

of Route 1, Banks, Oregon (Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is

2. The name of the stream from which the reservoir is to be filled and the appropriation made is

Bausch Creek
tributary of Pledsoe Creek

3. The amount of water to be stored is 31.2 acre feet.

4. The use to be made of the impounded water is Irrigation & Duck pond
(Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 33
(Give sections or townships to be submerged)

Tp. 2N, R. 3W, W.M., in the county of Washington

(a) State whether situated in channel of running stream and give character of material at outlet

To Be excavated in channel

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in SW 1/4 SE 1/4, Sec. 33
(Smallest legal subdivision)

Tp. 2N, R. 3W, W.M. The maximum height will be 7 3/4 feet above stream bed or ground

~~surface on center line of dam~~ The length on top will be _____ feet; length on

bottom _____ feet; width on top _____ feet; slope on front

or water side _____; slope on back _____; height of dam above water line

(Feet horizontal to 1 vertical) (Feet horizontal to 1 vertical)

when full _____ feet. See attached drawing

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon 97310.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: Steel re-inforced Concrete flashboard dam with a 6 ft. bay constructed in the channel of stream. This dam will raise the water in the channel to within 2 feet of the top of the banks.

8. The location of wasteway with dimensions are as follows: Water will spill over flash boards when they are in place. Water will pass through open bay when flashboards are removed.
(State whether over or around the dam)

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: 8" Tile line installed to pass normal flow as shown on map.
(All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time)

10. The area submerged by the proposed reservoir, when full, will be 1.10 ac. above road acres, 1.75 ac. below road with a maximum depth of water of 4.5 feet above road feet; and approximate mean depth of water 6.75 feet below road 3.40 feet above road feet.

11. The estimated cost of the proposed work is \$ 7,000.

12. Construction work will begin on or before May 1, 1969

13. Construction work will be completed on or before Nov. 1, 1970

Ernest Pedersen

ASSISTANT

Remarks: The reservoir will be refilled as soon as possible after the irrigation season to provide water for ducks. The flashboards will be removed the first week in January and will not be replaced until about April 15 each year.

The primary source of water will be Bledsoe Creek when the source is no longer available the reservoir will be used. The purpose of the 8 inch. pipe is to by-pass normal flow in Bausch Creek when required.

A copy of the legal description of property was mailed with the original application.

Item # 4. There will be 21 acre feet stored for irrigation purposes and used during the irrigation season. The pond will be refilled (21 acre feet) as soon as possible after the irrigation season and used for ducks. The water will be released as soon as the duck hunting season is over. Emptying the reservoir after duck season means the lake for planting duck feed in the spring. When refilled for irrigation purposes the lake is not flooded.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions: The right herein granted is limited to the construction of reservoir and storage of water from Bausch Creek to be appropriated under application No. 46131, permit No. 34502, for irrigation and duck pond.

The right hereunder shall be limited to the storage of 21.0 acre feet.

The priority date of this permit is October 30, 1969.

Actual construction work shall begin on or before April 24, 1971 and

shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1972.

WITNESS my hand this 24th day of April, 1970.
