STATE ENGINEER
SALEM, OREGON

* Reservoir Permit No. R 6051

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, Ingram Brothers (Name of Applicant)

of P. O. Box 906 (Mailing address), Bandon (City)

State of Oregon, 97411 (Zip Code), do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is Unnamed reservoirs Nos. 1 and 2

2. The name of the stream from which the reservoir is to be filled and the appropriation made is Crooked Creek
tributary of Pacific Ocean

3. The amount of water to be stored is No. 1 - 2 acre feet; No. 2 - 4 acre feet acre feet.

4. The use to be made of the impounded water is Irrigation of cranberries and harvesting and temperature control. (Irrigation, power, domestic supply, etc.) them,

5. The location of the proposed reservoir will be in Sec. No. 1 in Sec. 12; No. 2 in Sec. 1 (Give sections or townships to be submerged)

Tp. 29 S, R. 15 W, W.M., in the county of Coos

(a) State whether situated in channel of running stream and give character of material at outlet
Both reservoirs are off channel, in-system, excavated ponds.

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions Primarily by means of a pump and pipeline system from Crooked Cr.

The reservoirs are so located to catch the run off water from the Cranberry bogs served by this system and so are part of a recirculating system to reuse the run off.

6. The dam will be located in all in excavation #1 - NW 1/4 NE 1/4 12, Sec. 1,
see remarks (Smallest legal subdivision)

Tp. 29 S, R. 15 W, W.M. The maximum height will be _____ feet above stream bed or ground surface on center line of dam. The length on top will be _____ feet; length on bottom _____ feet; width on top _____ feet; slope on front or water side _____; slope on back _____; height of dam above water line when full _____ feet.
(Feet horizontal to 1 vertical) (Feet horizontal to 1 vertical)

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon 97310.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: Constructed by excavation in clay-sand soils

8. The location of wasteway with dimensions are as follows: all discharge from reservoirs
(State whether over or around the dam)
by means of pumping.

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: No outlet, entirely in excavation off channel
(All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time)

10. The area submerged by the proposed reservoir, when full, will be #1 - 0.35; #2 - 0.8 acres, with a maximum depth of water of both 15 feet; and approximate mean depth of water #1 - 6; #2 - 5 feet.

11. The estimated cost of the proposed work is \$.....

12. Construction work will begin on or before

13. Construction work will be completed on or before

.....
STATE ENGINEER
By i.
ASSISTANT

Remarks: Reservoir (Pond) No. 1 is an existing, below grade sump measuring 190 ft in length, 80 ft in width and having a maximum water storage depth of approx. 15 ft.

Reservoir (Pond) No. 2 is a proposed, below grade sump with a water surface area of approx. 0.8 acre and a maximum water storage depth of approx. 15 ft.

It is intended to start the growing season with the reservoirs full of water. Once the season has begun for irrigation and temperature control, followed by harvesting, the reservoirs will be operated as part of a recirculating water supply system with diversion of natural flow from Crooked Creek to add to the supply as needed.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions: The right herein granted is limited to the construction of reservoirs No. 1 and 2 and storage of water from Crooked Creek to be appropriated under application No. 51628, Permit No. 37295, for irrigation and harvesting cranberries, and temperature control.

The right hereunder shall be limited to the storage of 6.0 af being 2.0 af reservoir No. 1 & 4.0 af reservoir No. 2 acre feet.

The priority date of this permit is January 23, 1974

Actual construction work shall begin on or before March 28, 1975 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1975.

WITNESS my hand this 28th day of March, 1974.
