Remarks: ..... This dam has been built already . In checking it over  
..... I find that it had a small leak about where the water line  
..... is so I believe it is a good plan to put the blanket of  
..... earth on the face of the dam as shown on the plan. It is  
..... very hard to tell exactly how a dam that it already built  
..... was built but I think the plans show it pretty close.
