^{*}A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

having a length on top of110	feet; length on bottom 70
	feet slope of front or water side 2½ to 1 (Feet horizontal to 1 vertical)
	; height of dam above water line when full
(Feet horizontal to 1 vertice	cal)
7. The construction of dam, the material	of which it is to be built, and method of protection from
waves are as follows: Dam to be earth fil	ll deposited in 6" layers with caterpillar
	protection considered necessary.
8. The location of wasteway with dimension sheeting construction 2 feet wide at	ons are as follows: Wooden box Spillway of double (State whether over or around the dam)
<u></u>	
	reservoir, with character of construction and dimensions,
are as follows: 6" cast iron pipe laid und	der dam on top of hardpan ner through or around the proposed dam)
e all	
10. The area submerged by the proposed r	eservoir, when full, will be 0.20 acres,
	feet; and approximate mean depth of water
5feet.	•
11. The estimated cost of the proposed work	k is \$
19 Construction work will begin on or hef	ore April 1, 1929
13. Construction work will be completed on	n or before October 1, 1929
Duplicate maps of the proposed reservoir and	storage works, prepared in accordance with the rules of
the State Water Board, accompany this applica	ation.
