Reservoir Permit No. R 6272

CERTIFICATE NO. 45612

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, Cedar Bend Golf Association, Inc., An Oregon Corporation
(Name of Applicant)

of P.O. Box 1234 Gold Beach
(Mailing address) (City)

State of Oregon 97444, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation Sept. 2, 1969
Gold Beach, Oregon

1. The name of the proposed reservoir is Gus Creek Reservoir

2. The name of the stream from which the reservoir is to be filled and the appropriation made is Gus Creek
tributary of Cedar Fork Creek

3. The amount of water to be stored is 7.2 acre feet.

4. The use to be made of the impounded water is Irrigation
(Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 16
Tp. 35 S., R. 14 W., W.M., in the county of Curry
(Give sections or townships to be submerged)

(a) State whether situated in channel of running stream and give character of material at outlet
It is adjacent to channel of running stream.
Earth and rock material at outlet.

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions
Two 18-in. Metal Culvert Pipes

6. The dam will be located in S.E. 1/4, N.W. 1/4, Sec. 16
(Smallest legal subdivision)
Tp. 35 S., R. 14 W., W.M. The maximum height will be 8 feet above stream bed or ground
surface on center line of dam. The length on top will be 30 feet; length on bottom 210 feet; width on top 15 feet; slope on front or water side 3/1; slope on back 3/1; height of dam above water line when full 2 feet.
(Feet horizontal to 1 vertical)

*A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon 97310.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: Earth constructed dam, compacted material.

No wave action.

8. The location of wasteway with dimensions are as follows: (State whether over or around the dam)

Irrigation water and hazard course for golf course. Water pumped in and out during the summer for above purposes.

Water flows through the dam.

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: Opposite of inlet. Two 18 inch metal pipes.

(All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time) Two 18 inch gate valves upstream.

10. The area submerged by the proposed reservoir, when full, will be 1.2 acres, with a maximum depth of water of 6 feet; and approximate mean depth of water 0-6 feet.

11. The estimated cost of the proposed work is \$60,000.00.

12. Construction work will begin on or before August 1970.

13. Construction work will be completed on or before June 1971.

James R. Allison, Inc. (Signature of applicant) J. R. Allison, Sec.

STATE OF OREGON, } ss. County of Marion,

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before, 19.

WITNESS my hand this day of, 19.

STATE ENGINEER

By ASSISTANT

Remarks: Refer to Map "1", Gus Creek flows in the general direction of A to B. In the winter and spring months its flow is enough to fill the reservoir. In the summer and fall months it is augmented by pumping from Cedar Fork at C. Usually during nighttime. The pond once filled is then used to irrigate the Golf Course.

The existing Gus Creek reservoir is now 4 years old. ~~XXXXXXXXXX~~ Gus Creek flows by gravity into the reservoir ~~XXXXXXXXXXXXXXXXXXXX~~ ~~XXXXXXXXXXXX~~ through the indicated 18 inch metal pipes, during the summer months, (June-Sept.).

During the winter months when it is not needed, Gus Creek is bypassed by channel from the reservoir area North into Cedar Fork.

During the summer months, (June-Sept.), water is allowed to flow into the reservoir from Gus Creek during all of the 24 hour period of day.

Gus Creek does not fill the reservoir during this period of time. The reservoir is then augmented by pumping from Cedar Fork Creek into the reservoir during the night.

During the summer months the reservoir is filled during the evening and night time each day, pumped for irrigation during the early morning hours each day, and the cycle repeated.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions: The right herein granted is limited to the construction of Gus Creek Reservoir and storage of water from Gus Creek to be appropriated under Application No. 52524, Permit No. 39169 for irrigation.

The right hereunder shall be limited to the storage of 7.2 acre feet.

The priority date of this permit is February 10, 1975

Actual construction work shall begin on or before December 22, 1976 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1977.

WITNESS my hand this 22nd day of December, 1975.
