CERTIFICATE NO. 50803

* Reservoir Permit No. R 6458

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, John Hafer (Name of Applicant)

of Izee Route (Mailing address), Canyon City (City),

State of Oregon, 97820 (Zip Code), do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is unnamed

2. The name of the stream from which the reservoir is to be filled and the appropriation made is unnamed spring - It definitely comes from springs tributary of Canyon Creek, tributary of John Day River

3. The amount of water to be stored is .17 acre feet.

✓ 4. The use to be made of the impounded water is ~~Domestic and fire protection~~ less than (Irrigation, power, domestic supply, etc.) $\frac{1}{2}$ acre irrigation

5. The location of the proposed reservoir will be in Sec. 24 (Give sections or townships to be submerged) Tp. 14 S., R. 31 E., W.M., in the county of Grant

(a) State whether situated in channel of running stream and give character of material at outlet not in channel of running stream

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions filled from springs adjacent to reservoir. 1 (one) spring vein comes to surface 25 feet from reservoir, it is piped into a 10' deep well by 1 1/2" pipe. Also a vein leads well 9' down & continues underground to reservoir.

6. The dam will be located in SW 1/4 NW 1/4 (Smallest legal subdivision), Sec. 24, Tp. 14 S., R. 31 E., W.M. The maximum height will be 4.5 feet above stream bed or ground surface on center line of dam. The length on top will be 60 feet; length on bottom 55 feet; width on top 2.5 feet; slope on front or water side 3.3 to 1; (Feet horizontal to 1 vertical) slope on back 1.7 to 1; (Feet horizontal to 1 vertical) height of dam above water line when full .5 feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon 97310.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: rock and dirt fill, no waves

8. The location of wasteway with dimensions are as follows: overflow pipe 2 1/2"
(State whether over or around the dam)
in diameter

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: no outlet needed since off channel, but a dry
(All dams across natural stream channels must be provided with an outlet conduit, of such capacity and suction pumping system will be installed.
location to pass the normal flow of the stream at any time)

10. The area submerged by the proposed reservoir, when full, will be .029 acres, with a maximum depth of water of 8 feet; and approximate mean depth of water 6 feet.

11. The estimated cost of the proposed work is \$ 600

12. Construction work will begin on or before completed

13. Construction work will be completed on or before completed

John Hadire
