* Reservoir Permit No. R 6736

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, Jerome Gehring (Name of Applicant)

of Rt. 3 Box 99, Silverton
(Mailing address) (City)

State of Oregon, 97381, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is J & G Farms Reservoir

2. The name of the stream from which the reservoir is to be filled and the appropriation made is Drift Creek

tributary of Pudding River

3. The amount of water to be stored is ~~10.0~~ 9.2 acre feet.

4. The use to be made of the impounded water is irrigation and supplemental irrigation
(Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 9
(Give sections or townships to be submerged)

Tp. T5, R. 1W, W.M., in the county of Marion

(a) State whether situated in channel of running stream and give character of material at outlet out of channel

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions 4" tile line

6. The dam will be located in W/2 SE 1/4, Sec. 9
(Smallest legal subdivision)

Tp. T5, R. 1W, W.M. The maximum height will be 10.0 feet above stream bed or ground surface on center line of dam. The length on top will be 300.0 feet; length on bottom 280.0 feet; width on top 10.0 feet; slope on front or water side 3:1; slope on back 2:1; height of dam above water line when full 2.5 feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon 97310.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: Reservoir is principally excavated with embankment compacted in place, above ground level embankment is sodden

8. The location of wasteway with dimensions are as follows: The location of the canal is in the South West corner. It is 80' long and 8" in diameter. Material is corrugated steel culvert. 8" Cast Gate valve with an opening stem extending to top of embankment with a wheel
(State whether over or around the dam)

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: The location is in the South East corner. Construction was excavation with a 10' blade and was 30' long
(All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time)

10. The area submerged by the proposed reservoir, when full, will be 12 acres, with a maximum depth of water of 12 feet; and approximate mean depth of water 9 1/2 feet.

11. The estimated cost of the proposed work is \$ 6000

12. Construction work will begin on or before July 15, 1975

13. Construction work will be completed on or before Oct -76
