

\* Reservoir Permit No. **R 6761**

### Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, City of Salem  
(Name of Applicant)

of City Hall, Salem, Oregon 97301  
(Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation Municipal  
Corporation; 1857; Salem, Oregon

1. The name of the proposed reservoir is Salem Civic Center Reservoir

2. The name of the stream from which the reservoir is to be filled and the appropriation made is Pringle Creek

tributary of Willamette River

3. The amount of water to be stored is 4.50 acre feet.

4. The use to be made of the impounded water is recreation (beautification)  
(Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 27  
(Give sections or townships to be submerged)

Tp. 7 S, R. 3 W, W.M., in the county of Marion

(a) State whether situated in channel of running stream and give character of material at outlet  
The reservoir will be in the stream channel. The stream bed is river run gravel.

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions Not applicable.

6. The dam will be located in Block 36 Salem, Sec. 27  
(Smallest legal subdivision)

Tp. 7 S, R. 3 W, W.M. The maximum height will be 5 feet above stream bed or ground surface on center line of dam. The length on top will be 109 feet; length on bottom 80 feet; width on top varies 2 inches to 2 feet; slope on front or water side vertical; slope on back vertical; height of dam above water line when full 0 feet.  
(Feet horizontal to 1 vertical) (Feet horizontal to 1 vertical)

\* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon 97310.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: Removable steel posts will be mounted on a concrete foundation  
removable  
and corrugated aluminum arches will be set between the posts.

8. The location of wasteway with dimensions are as follows: The waste water will  
(State whether over or around the dam)  
overtop the aluminum shells and fall onto the concrete apron. Width of the  
waste way will be eighty feet.

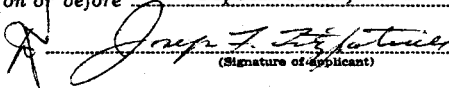

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: Two 18 inch drains with shear gates will be provided through  
(All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time)  
the footing.

10. The area submerged by the proposed reservoir, when full, will be 1.50 acres,  
with a maximum depth of water of 5 feet; and approximate mean depth of water  
3 feet.

11. The estimated cost of the proposed work is \$ 14,500

12. Construction work will begin on or before September 1, 1971

13. Construction work will be completed on or before September 30, 1971
