

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, R. W. Lemen (Name of applicant)

of Portland, County of Multnomah (Post office)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is MOORE - LEMEN RESERVOIR

2. The name of the stream from which the reservoir is to be filled and the appropriation made is an unnamed stream tributary of Windchuck River.

3. The amount of water to be stored is 10,000 gallons.          acre feet.

4. The use to be made of the impounded water is Irrigation, Domestic, livestock. (Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 23, T. 41 S., R. 13 W. (Give sections or townships to be submerged)

(a) State whether situated in channel of running stream and give character of material at outlet In channel of running stream. Material is gravelly clay.

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions         

6. The dam will be located in NW 1/4 of the SE 1/4, Sec. 23, Tp. 41 S., R. 13 W., W. M. It will be 6.5 feet in height, (No. N. or S.) (No. E. or W.)

\* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

having a length on top of 22 feet; length on bottom 22 feet; width on top 1 feet slope of front or water side 1 in 6  
(Feet horizontal to 1 vertical)  
 slope on back vertical; height of dam above water line when full  
(Feet horizontal to 1 vertical)  
1 feet.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: Dam, reinforced concrete. Wave action will be negligible.

8. The location of wasteway with dimensions are as follows: Waste way in center of dam.  
(State whether over or around the dam)  
2 feet wide and 1 foot deep.

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: A 3" galvanized pipe thru the dam about 2 feet below the crest of the  
(State whether through or around the proposed dam)  
spillway.

10. The area submerged by the proposed reservoir, when full, will be 225 Sq. Ft. acres,  
 with a maximum depth of water of 4.5 feet; and approximate mean depth of water  
2 feet.

11. The estimated cost of the proposed work is \$ 800.00

12. Construction work will begin on or before Completed

13. Construction work will be completed on or before is now completed.

Duplicate maps of the proposed reservoir and storage works, prepared in accordance with the rules of the State Water Board, accompany this application.
