

* Reservoir Permit No. R-978

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, FLOYD J. PECK and IDA M. PECK
(Name of Applicant)

of Rt. 3, Box 654, Oregon City, Oregon
(Mailing Address)

State of _____, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation _____

1. The name of the proposed reservoir is nil

2. The name of the stream from which the reservoir is to be filled and the appropriation made is two small unnamed streams which run together and are a tributary of _____ tributary of Abernethy Creek

3. The amount of water to be stored is (See No. 7) 0.5 acre feet.

4. The use to be made of the impounded water is irrigation
(Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. Ten
(Give sections or townships to be submerged)

Tp. 3 South, R. 2 East, W. M., in the county of Clackamas

(a) State whether situated in channel of running stream and give character of material at outlet
Concrete dam across main channel. Channel very small and would be bulldozed out behind the dam to form pond.

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions nil

6. The dam will be located in NW¹/₄ of NE¹/₄, Sec. 10,
(Smallest legal subdivision)
 Tp. 3 south, R. 2 east, W. M. The maximum height will be 2 feet above stream bed or ground surface on center line of dam. The length on top will be 50 feet; length on bottom about same feet; width on top 8" feet; slope of front or water side none; slope on back none; height of dam above water line when full 1/2 feet.
(Feet horizontal to 1 vertical) (Feet horizontal to 1 vertical)

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: Pond will cover not over 50'x 100' and waves no problem.

8. The location of wasteway with dimensions are as follows: 6" in length and 20' inwidth (State whether over or around the dam)

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: Over spillway - see above (State whether through or around the proposed dam)

10. The area submerged by the proposed reservoir, when full, will be 1/10th of 1 acres, with a maximum depth of water of 6 feet; and approximate mean depth of water 4 feet.

11. The estimated cost of the proposed work is \$500.00

12. Construction work will begin on or before September 1, 1949

13. Construction work will be completed on or before one year
