

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, Oliver Martin (Name of Applicant)

of Route 1, Box 498, Central Point (Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is Martin Dam

2. The name of the stream from which the reservoir is to be filled and the appropriation made is Unnamed Draw tributary of Rogue River

3. The amount of water to be stored is 6 acre feet.

4. The use to be made of the impounded water is irrigation (Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 21 (Give sections or townships to be submerged)

Tp. 36 S., R. 2 W., W. M., in the county of Jackson

(a) State whether situated in channel of running stream and give character of material at outlet In Unnamed Draw; 10" concrete pipe through dam

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in NE 1/4 NE 1/4, Sec. 21 (Smallest legal subdivision)

Tp. 36 S., R. 2 W., W. M. The maximum height will be 10 feet above stream bed or ground surface on center line of dam. The length on top will be 210 feet; length on bottom 175 feet; width on top feet; slope of front or water side 3 to 1; slope on back 2 to 1; height of dam above water line when full 4 feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: dirt and rock. The main part of the reservoir will consist of excavating below ground level by dozer and dirt moved to rim.

8. The location of wasteway with dimensions are as follows: Around south end of dam
(State whether over or around the dam)
with concrete spillway with regulation boards.

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: Northeast end through bottom; 10" concrete with concrete collars.
(State whether through or around the proposed dam)

10. The area submerged by the proposed reservoir, when full, will be 1.5 acres, with a maximum depth of water of 8' feet; and approximate mean depth of water 4' feet.

- 11. The estimated cost of the proposed work is \$ 2,000.00
- 12. Construction work will begin on or before one year from date of priority.
- 13. Construction work will be completed on or before two years from date of priority.
