Remarks:

The springs are small ones and according to location I do not think they could ever be used for anything but watering stock and would not go a long way towards that use. These small springs are close to the division line of fencing and I am told my neighbor on the east can file on these springs and deprive me of their use, although they are well within my own line - some 150 ft. It would not pay to do more than dig a hole and let a few head of stock drink there
