Remarks: It is planned to use a pump and engine on skids and to pump into a ditch from the west side of the 8-acre tract and on the west side of the 3-acre tract. This pump will be connected with the ditch by pipe or flexible hose, and its location will vary somewhat depending on height of water. It is also planned pump on to the 8-acre tract approximately 100 feet west of the railroad tract, setting the pump down close to the river, and carrying the water up over the land through temporary ditch and flume. Construction work will start by plowing, levelling and installing strip borders. The pump and ditch will not be installed until after the ground is seeded.
