

\*APPLICATION FOR A PERMIT

To appropriate the Public Waters of the State of Oregon

I, T. H. Sherrard, Forest Supervisor, Mount Hood National Forest, Oregon

(Name of applicant)

of 503 Post Office Bldg., Portland, County of Multnomah

(Postoffice)

State of Oregon, do hereby make application for a permit to appropriate the

following described public waters of the State of Oregon, subject to existing rights:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is Lady Creek, tributary of Zigzag River of Sandy River, a tributary of The Columbia River

(Name of stream)

2. The amount of water which the applicant intends to apply to beneficial use is one

cubic feet per second. (If water is to be used from more than one source, give quantity from each)

\*\*3. The use to which the water is to be applied is domestic use for a large group of summer homes, now numbering over three hundred and likely to grow to exceed five hundred families.

4. The point of diversion is located ft. and ft. from the corner of N. 19 E. 1740 feet from the corner common to sections 16 and 17, Tp. 3 S., R. 8 E. W. M., Clackamas County, Oregon

(N. or S.)

(E. or W.)

(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary.)

being within the SE 1/4, SW 1/4, NW 1/4, NW 1/4 of Sec. 16, Tp. 3 S., R. 8 E. W. M., in the county of Clackamas

(Give smallest legal subdivision)

(N. or S.)

5. The pipe line with laterals to be 49,800 feet in length, terminating in the SE 1/4, SE 1/4, SE 1/4, NW 1/4 of Sec. 11, Tp. 3 S., R. 7 E. W. M., the proposed location being shown throughout on the accompanying map.

(Main ditch, canal or pipe line)

(Miles or feet)

(Smallest legal subdivision)

(N. or S.)

(E. or W.)

DESCRIPTION OF WORKS

DIVERSION WORKS—

6. (a) Height of dam 4 feet, length on top 10 feet, length at bottom feet; material to be used and character of construction concrete

(Loose rock, concrete, masonry, rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate concrete settling box

(Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description

(Size and type of pump)

(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

\* A different form of application is provided where storage works are contemplated.

\*\* Applications for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

CANAL SYSTEM OR PIPE LINE—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, ..... ft.; size at intake, ..... in.; size at ..... ft. from intake ..... in.; size at place of use ..... in.; difference in elevation between intake and place of use, ..... ft. Is grade uniform? ..... Estimated capacity, ..... sec. ft.

Mt. Hood National Forest summer home colony east of Rhododendron.

8. Location of area to be irrigated, or place of use .....

| Township | Range | Section | Forty-acre Tract                 | Number Acres To Be Irrigated |
|----------|-------|---------|----------------------------------|------------------------------|
| 3 S      | 8 E   | 17      | S $\frac{1}{2}$                  | Domestic                     |
|          |       | 18      | N $\frac{1}{2}$ N $\frac{1}{2}$  |                              |
|          |       | 19      | S $\frac{1}{2}$                  |                              |
|          |       | 20      | N $\frac{1}{2}$ N $\frac{1}{2}$  |                              |

|          |       | 13      | N $\frac{1}{2}$                  |                              |
|          |       | 14      | N $\frac{1}{2}$ NE $\frac{1}{2}$ |                              |
|          |       |         |                                  |                              |
|          |       |         |                                  |                              |
|          |       |         |                                  |                              |
|          |       |         |                                  |                              |
|          |       |         |                                  |                              |
|          |       |         |                                  |                              |
|          |       |         |                                  |                              |
|          |       |         |                                  |                              |
|          |       |         |                                  |                              |
|          |       |         |                                  |                              |
|          |       |         |                                  |                              |

(If more space required, attach separate sheet)

(a) Character of soil ..... rocky

(b) Kind of crops raised .....

POWER OR MINING PURPOSES—

9. (a) Total amount of power to be developed ..... theoretical horsepower.

(b) Quantity of water to be used for power ..... sec. ft.

(c) Total fall to be utilized ..... feet.  
(Head)

(d) The nature of the works by means of which the power is to be developed .....

(e) Such works to be located in ..... of Sec.....  
(Legal subdivision)

Tp....., R....., W. M.  
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream? .....  
(Yes or No)

(g) If so, name stream and locate point of return .....

....., Sec....., Tp....., R....., W. M.  
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is .....

(i) The nature of the mines to be served .....

MUNICIPAL OR DOMESTIC SUPPLY—

10. (a) To supply the city of Mount Hood National Forest Summer homes  
Clackamas County, having a present population of  
(Name of) and an estimated population of in 193

(b) If for domestic use state number of families to be supplied 300 to 500

(Answer questions 11, 12, 13, and 14 in all cases)

- 11. Estimated cost of proposed works, \$ 20,000.00
12. Construction work will begin on or before July 1, 1933
13. Construction work will be completed on or before September 1, 1933
14. The water will be completely applied to the proposed use on or before Sept. 1, 1933

3--69 \$10.00

STATE OF OREGON, ss. County of Marion,

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use measured at the point of diversion from the stream, and shall not exceed 1.0 cubic feet per second, or its equivalent in case of rotation with other water users, from Lady Creek

The use to which this water is to be applied is domestic

If for irrigation, this appropriation shall be limited to \*\*\* of one cubic foot per second or its equivalent for each acre irrigated and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is August 9, 1933

Actual construction work shall begin on or before September 9, 1934 and shall thereafter be prosecuted with reasonable diligence and be completed on or before Oct. 1, 1935

Complete application of the water to the proposed use shall be made on or before Oct. 1, 1936

WITNESS my hand this 9th day of September, 1933

CHAS. E. STRICKLIN STATE ENGINEER
