Remarks: The Vroman Ditch diverts water on the northerly side of Evans
Creek in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 11, T. 35 S., R. 4 W.M., and is carried across
Evans Creek in a flume in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of said section. At the point where the flume
crosses, it is about 20 feet above low water and it is proposed to install a pump to
pump water into the flume at this point to supplement the water from the gravity
diversion. It is proposed to secure a second hand pump available locally and try it
out on this lift. It may be found necessary later to put in new equipment.
