

***APPLICATION FOR A PERMIT**

To Appropriate the Public Waters of the State of Oregon

I, Jas. W. Richardson
(Name of applicant)
of Dayton, Route 1, County of Yamhill
(Postoffice)
State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is Palmer Creek and an unnamed creek
(Name of stream)

, a tributary of Yamhill River

2. The amount of water which the applicant intends to apply to beneficial use is 0.38
cubic feet per second.
(If water is to be used from more than one source, give quantity from each)

**3. The use to which the water is to be applied is Irrigation
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located 800 ft. S and 100 ft. E from the NE
(N. or S.) (E. or W.)
corner of Sec. 8 - unnamed stream, and 700' S & 1700' W from same corner for Palmer Creek
(Section or subdivision)

(Distances approximate)
(If preferable, give distance and bearing to section corner)

From unnamed stream: NW¹/₄ NW¹/₄ Sec. 9

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the From Palmer Cr. NW¹/₄ NE¹/₄ of Sec. 8, Tp. 5 S
(Give smallest legal subdivision) (N. or S.)

R. 3 W, W. M., in the county of Yamhill
(E. or W.)

5. The _____ to be _____
(Main ditch, canal or pipe line) (Miles or feet)
in length, terminating in the _____ of Sec. _____, Tp. _____,
(Smallest legal subdivision) (N. or S.)

R. _____, W. M., the proposed location being shown throughout on the accompanying map.
(E. or W.)

DESCRIPTION OF WORKS

DIVERSION WORKS—

6. (a) Height of dam 5-6 feet, length on top 40 feet, length at bottom 40 feet; material to be used and character of construction Timber and earth
(Loose rock, concrete, masonry, rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate See "Remarks"
(Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description _____
(Size and type of pump)

(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

* A different form of application is provided where storage works are contemplated.

** Applications for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

CANAL SYSTEM OR PIPE LINE—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet. SEE "REMARKS"

(c) Length of pipe, ft.; size at intake, in.; size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

8. Location of area to be irrigated, or place of use

Township	Range	Section	Forty-acre Tract	Number Acres To Be Irrigated
5 S	3 W	8	NW $\frac{1}{4}$ NE $\frac{1}{4}$	7
			NE $\frac{1}{4}$ NE $\frac{1}{4}$	20
		9	NW $\frac{1}{4}$ NW $\frac{1}{4}$	3

(If more space required, attach separate sheet)

(a) Character of soil

(b) Kind of crops raised

POWER OR MINING PURPOSES—

9. (a) Total amount of power to be developed theoretical horsepower.

(b) Quantity of water to be used for power sec. ft.

(c) Total fall to be utilized feet.
(Head)

(d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in (Legal subdivision) of Sec.

Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream?
(Yes or No)

(g) If so, name stream and locate point of return

....., Sec., Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

MUNICIPAL OR DOMESTIC SUPPLY—

10. (a) To supply the city of _____
_____ County, having a present population of _____
(Name of)
and an estimated population of _____ in 193_____.

(b) If for domestic use state number of families to be supplied _____

(Answer questions 11, 12, 13, and 14 in all cases)

- 11. Estimated cost of proposed works, \$ _____
- 12. Construction work will begin on or before One year after approval _____
- 13. Construction work will be completed on or before Two years after approval _____
- 14. The water will be completely applied to the proposed use on or before 3 years after approval _____

(Signature of applicant)

Signed in the presence of us as witnesses:

- (1) V. S. Bovel _____, Salem _____
(Name) (Address of witness)
- (2) _____, _____
(Name) (Address of witness)

Remarks: The plan of irrigation is to place a small dam on the unnamed stream flowing through the east side of my lands near the north line to create a pumping sump, the pump to be located some 200 or 300 feet upstream, the approximate location as shown by the map. The water from Palmer Creek is to be diverted by means of a pump located in the NW corner of my tract within the NE 1/4 Section 8, as indicated by the map. There are a number of irrigation rights initiated for the appropriation of water from Palmer Creek, which are prior to this filing, and until the extent of the waters under these appropriations has been determined it is impossible to determine the quantity of water from Palmer Creek which will be available for use under this application. It is my intention to divert as much water as possible from Palmer Creek and to supplement this from the waters of the unnamed stream. However, at this

STATE OF OREGON, }
County of Marion, } ss. time it is impossible to determine the amount of water which will
be available for diversion and use under this application, and,
therefore, I am unable to appropriate the quantity of water which
it is intended to be appropriated from each stream.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____
Completion _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before May 10 _____, 1936.

WITNESS my hand this 10th day of March, 1936.

CHAS. E. STRICKLIN
STATE ENGINEER

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to existing rights and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.38 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from

Palmer Creek and an unnamed stream

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is May 14, 1936

Actual construction work shall begin on or before July 15, 1937 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before

Oct. 1, 1938 Extended to Oct. 1, 1940 Extended to Oct. 1, 1941 Extended to Oct. 1, 1945

Complete application of the water to the proposed use shall be made on or before Oct. 1, 1939 Extended to Oct. 1, 1940 Extended to Oct. 1, 1941 Extended to Oct. 1, 1942 Extended to Oct. 1, 1945

WITNESS my hand this 15th day of July, 1936.

CHAS. E. STRICKLIN
