

\*APPLICATION FOR A PERMIT

CERTIFICATE NO. 12388

To appropriate the Public Waters of the State of Oregon

I, Frank Meier (Name of applicant) of Meier & Frank Co., Portland, Oregon (Postoffice), County of ... State of ... do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is Johnson Creek (Name of stream), a tributary of Clackamas River

2. The amount of water which the applicant intends to apply to beneficial use is 0.25 cubic feet per second. (If water is to be used from more than one source, give quantity from each)

\*\*3. The use to which the water is to be applied is Fish ponds, domestic use including garden irrigation (Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located 500 ft. S (N. or S.) and ... ft. (E. or W.) from the corner of Clackamas River being approximately 50' W and 100' S. from the center of Section 15 (Section or subdivision) (If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the NE 1/4 SW 1/4 (Give smallest legal subdivision) of Sec. 15, Tp. 2 S (N. or S.)

R. 2 E (E. or W.), W. M., in the county of Clackamas

5. The pipe (Main ditch, canal or pipe line) to be 300' to 400' (Miles or feet) in length, terminating in the SE 1/4 NW 1/4 (Smallest legal subdivision) of Sec. 15, Tp. 2 S (N. or S.)

R. 2 E (E. or W.), W. M., the proposed location being shown throughout on the accompanying map.

DESCRIPTION OF WORKS

DIVERSION WORKS—

6. (a) Height of dam 2 feet, length on top 4 feet, length at bottom 3 feet; material to be used and character of construction wooden crib (Loose rock, concrete, masonry, rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate (Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description (Size and type of pump) (Size and type of engine or motor to be used, total head water is to be lifted, etc.)

\* A different form of application is provided where storage works are contemplated.

\*\* Applications for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

**CANAL SYSTEM OR PIPE LINE—**

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, 300 to 400 ft.; size at intake, 2 in.; size at ..... ft. from intake ..... in.; size at place of use 2 in.; difference in elevation between intake and place of use, 100 ft. Is grade uniform? Yes Estimated capacity, ..... sec. ft.

8. Location of area to be irrigated, or place of use .....

| Township | Range | Section | Forty-acre Tract                  | Number Acres To Be Irrigated |
|----------|-------|---------|-----------------------------------|------------------------------|
| 2 S      | 2 E   | 15      | SE $\frac{1}{4}$ NW $\frac{1}{4}$ | Place of use                 |
|          |       |         | NE $\frac{1}{4}$ SW $\frac{1}{4}$ | " " "                        |
|          |       |         |                                   |                              |
|          |       |         |                                   |                              |
|          |       |         |                                   |                              |
|          |       |         |                                   |                              |
|          |       |         |                                   |                              |
|          |       |         |                                   |                              |
|          |       |         |                                   |                              |
|          |       |         |                                   |                              |
|          |       |         |                                   |                              |
|          |       |         |                                   |                              |
|          |       |         |                                   |                              |
|          |       |         |                                   |                              |
|          |       |         |                                   |                              |
|          |       |         |                                   |                              |
|          |       |         |                                   |                              |
|          |       |         |                                   |                              |
|          |       |         |                                   |                              |
|          |       |         |                                   |                              |
|          |       |         |                                   |                              |
|          |       |         |                                   |                              |

(If more space required, attach separate sheet)

(a) Character of soil .....

(b) Kind of crops raised .....

**POWER OR MINING PURPOSES—**

9. (a) Total amount of power to be developed ..... theoretical horsepower.

(b) Quantity of water to be used for power ..... sec. ft.

(c) Total fall to be utilized ..... feet.  
(Head)

(d) The nature of the works by means of which the power is to be developed .....

(e) Such works to be located in ..... of Sec. ....  
(Legal subdivision)  
Tp. ...., R. ...., W. M.  
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream? .....  
(Yes or No)

(g) If so, name stream and locate point of return .....  
....., Sec. ...., Tp. ...., R. ...., W. M.  
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is .....

(i) The nature of the mines to be served .....

MUNICIPAL OR DOMESTIC SUPPLY—

10. (a) To supply the city of .....  
..... County, having a present population of .....  
(Name of)  
and an estimated population of ..... in 193.....

(b) If for domestic use state number of families to be supplied .....

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$.....

12. Construction work will begin on or before Completed except for domestic use .....

13. Construction work will be completed on or before .....

14. The water will be completely applied to the proposed use on or before .....

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to existing rights and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.25 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from

Johnson Creek

The use to which this water is to be applied is Fish ponds, domestic, including the irrigation of a garden not exceeding two acres in area, being 0.20 sec. ft. for fish ponds and 0.05 sec. ft. for domestic and garden

If for irrigation, this appropriation shall be limited to of one cubic foot per second

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is July 10, 1936

Actual construction work shall begin on or before September 5, 1937 and shall thereafter be prosecuted with reasonable diligence and be completed on or before

Oct. 1, 1938

Complete application of the water to the proposed use shall be made on or before

Oct. 1, 1939

WITNESS my hand this 5th day of September, 1936
