Remarks: The lands included herein, already have a water right which
was adjudicated in the North Powder River proceedings and this application
is supplementary to such right and in no way waives any of such right or
in any way affects it. Warm Spring Creek is used for a distribution ditch
through applicants lands and in various points and laterals are taken off
from it.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 4.0 cubic feet per second, or its equivalent in case of rotation with other water users, from Warm Spring Creek and Sloughs and waste waters from the irrigation used on said land

The use to which this water is to be applied is Supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/40th of one cubic foot per second or its equivalent for each acre irrigated, provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein, and is also limited to the water available at the proposed point of diversion, and does not carry with it the right to divert water from the stream from which the waste water is diverted nor the right to require the wasteful use of water by others, and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is October 5, 1936. Actual construction work shall begin on or before January 8, 1938, and shall

thereafter be prosecuted with reasonable diligence and be completed on or before Oct. 1, 1938

Complete application of the water to the proposed use shall be made on or before Oct. 1, 1939

WITNESS my hand this 8th day of January, 1937
