

***APPLICATION FOR A PERMIT**

To appropriate the Public Waters of the State of Oregon

I, George E. Parker and Wesley G. Parker
(Name of applicant)
of Wallowa, County of Wallowa,
(Postoffice)
State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation _____

1. The source of the proposed appropriation is Lostine and Wallowa Rivers
(Name of stream)

_____, a tributary of _____

2. The amount of water which the applicant intends to apply to beneficial use is 1.25
cubic feet per second. See attached remarks.
(If water is to be used from more than one source, give quantity from each)

**3. The use to which the water is to be applied is Irrigation
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located 175 ft. N. and 125 ft. E. from the SW
(N. or S.) (E. or W.)
corner of SW 1/4, Sec. 13, 1 North, Range 42 E. W. M. (This is the present diversion
(Section or subdivision)
from the Clearwater Ditch Company ditch to irrigate existing lands with water
(If preferable, give distance and bearing to section corner)
right. The present application is to cover more lands.
(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the SW 1/4 SW 1/4 (See attached remarks) of Sec. 13, 1 North,
(Give smallest legal subdivision) (N. or S.) Not stream diversions

R. 42, W. M., in the county of Wallowa
(E. or W.)

5. The _____ to be _____
(Main ditch, canal or pipe line) (Miles or feet)
in length, terminating in the _____ of Sec. _____, Tp. _____,
(Smallest legal subdivision) (N. or S.)

R. _____, W. M., the proposed location being shown throughout on the accompanying map.
(E. or W.)

DESCRIPTION OF WORKS

DIVERSION WORKS—

6. (a) Height of dam 3 feet, length on top 3 feet, length at bottom
3 feet; material to be used and character of construction loose rock and dirt
(Loose rock, concrete, masonry,
rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate present headgate is wood. Additional diversions
will be of dirt and rock.
(Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description _____
(Size and type of pump)

(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

* A different form of application is provided where storage works are contemplated.

** Applications for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

REMARKS

11. The source of the water desired is to be from the Wallowa River and the Lostine river, sometimes known as the South Fork of the Wallowa River. It is impossible to state the amount of water which the applicant intends to apply as from each source, for the reason that the waters from the Wallowa River used through the Clear Water ditch is merely supplementary to the natural flow of the Lostine river. It is estimated that waters will be drawn from the Wallowa River during the months of July, August and September. As there is always some water in the Lostine River during this period of time it would be difficult to ascertain the quantity from each. This application desires the specified quantity of water from both streams, if possible, so as to insure the obtaining of the desired quantity.

IV. The point of diversion from the Lostine River is 660 feet East of the South West Quarter ($SW\frac{1}{4}$) corner of Section 33, one North range 43, E. W. M. The diversion from the Wallowa River is South $66^{\circ} 11'$ West to the South West corner of Section 11, Township 1, South of range 43, E. W. M., distance of 3378.9 ft.

Lostine River diversion being within $SW\frac{1}{4}SW\frac{1}{4}$ of Sec. 33,
T. 1 N., R. 43 E., W. M.

Wallowa River diversion being within $NW\frac{1}{4}SE\frac{1}{4}$ of Sec. 11,
T. 1 S., R. 43 E., W. M.

MUNICIPAL OR DOMESTIC SUPPLY—

10. (a) To supply the city of
..... County, having a present population of
(Name of)
and an estimated population of in 193.....

(b) If for domestic use state number of families to be supplied

(Answer questions 11, 12, 13, and 14 in all cases)

- 11. Estimated cost of proposed works, \$ 700.00
- 12. Construction work will begin on or before May 1, 1937
- 13. Construction work will be completed on or before July 1, 1938
- 14. The water will be completely applied to the proposed use on or before July 1, 1938

Geo. E. Parker
.....
(Signature of applicant)

Wesley G. Parker
.....

Wallowa, Oregon
.....

Signed in the presence of us as witnesses:

(1) Cecil Chrisman Wallowa, Oregon
(Name) (Address of witness)

(2) Geo. E. Dale Wallowa, Oregon
(Name) (Address of witness)

Remarks: The purpose of this application is to obtain a water right to
additional lands to be served by the Clearwater ditch. The present diversion
point is used in irrigating certain lands and it is the desire of the applicant
to obtain water rights to cover additional lands. The lands to be added would
be serviced from the present ditches on the land. No new diversions would be
required from the main ditch.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same,
subject to existing rights and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use
and shall not exceed 1.25 cubic feet per second measured at the point of diversion from the
stream, or its equivalent in case of rotation with other water users, from

Lostine and Wallowa Rivers

The use to which this water is to be applied is Irrigation

Per acre

If for irrigation, this appropriation shall be limited to 1/40th of one cubic foot per
second from Lostine and Wallowa Rivers, provided that water shall be appropriated
from Wallowa River only during those periods when there is an insufficient quantity
available from Lostine River to make up the quantity allowed herein, and then only
so much as may be required to make a total appropriation from both sources of not to
exceed the quantity allowed herein.
and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is April 30, 1937

Actual construction work shall begin on or before June 11, 1938 and shall
thereafter be prosecuted with reasonable diligence and be completed on or before
October 1, 1939

Complete application of the water to the proposed use shall be made on or before
October 1, 1940

WITNESS my hand this 11th day of June, 1937
