Remarks: The water applied for accumulates within the county gravel pit and
at times flows such an excess to cause the county more or less trouble from
people below. The water or lands are not within an irrigation district, nor
would it be possible for any district to reclaim the same. In time the lands
covered by this application will be held by individuals in acre ownerships,
development of the property however has already begun, and the water applied for
herein is considered very essential for the full development of the tract.
