PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to existing rights and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 3.0 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Seepage and Waste Water.

The use to which this water is to be applied is Supplemental Irrigation.

If for irrigation, this appropriation shall be limited to 1/40th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year, and shall be limited still further to a total diversion of not to exceed 3.0 cubic feet per second, and shall also be limited to the water available at the proposed point of diversion, and shall not carry with it the right to divert water from the stream from which the waste water is diverted nor the right to require the wasteful use of water by others; provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein, and shall be subject to such reasonable rotation system as may be ordered by the proper State officer.

The priority date of this permit is September 24, 1937

Actual construction work shall begin on or before January 21, 1939 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1939 Extended to Oct. 1, 1940

Complete application of the water to the proposed use shall be made on or before October 1, 1940

WITNESS my hand this 21st day of January, 1938
