Remarks: In our former application on the springs in Pole Creek Swamp our filing was for 1.5 sf. of water which we developed and ditched into Pole Creek. So far we have obtained only about 0.9 sf. so we are making this application for 1.5 sf. and will see what we can develop. We expect somewhere in the line of 2.0 sf. and we will turn the balance over to Mrs. M. Bailey which will give her the full amount she is entitled to and then she wont have to run water say 1.25 sf. from Squaw Creek in a large ditch with excessive loss. Mrs. Bailey is entitled to 8.50 sf. Pole Creek furnishes from 7.00 to 7.25 sf most of the time and we expect we can get the full amount for her all in this development.

AEP.

The water will be carried down Pole Creek to the point of diversion of our 8" pipe line as shown on the general map attached to our former Permit on the springs in Pole Creek Swamp, and then carried thru the pipe to the Town.
