### PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to existing rights and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.17 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Waste Water

The use to which this water is to be applied is Supplemental Irrigation

All ditches used in transporting water described in this permit are owned by applicant.

If for irrigation, this appropriation shall be limited to 1/30th of one cubic foot per second or its equivalent for each acre irrigated and shall also be limited to the water available at the proposed point of diversion, and shall not carry with it the right to divert water from the stream from which the waste water is diverted nor the right to require the wasteful use of water by others; provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein, and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is July 8, 1937

Actual construction work shall begin on or before March 31, 1939 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1940

Complete application of the water to the proposed use shall be made on or before October 1, 1941

WITNESS my hand this 31st day of March, 1938
