PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to existing rights and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.50 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Overflow from the City of Long Creek Reservoir

The use to which this water is to be applied is Irrigation, Domestic and Stock, being 0.48 c.f.s. for irrigation and 0.02 c.f.s. for domestic and stock.

If for irrigation, this appropriation shall be limited to 1/40th of one cubic foot per second for each acre irrigated prior to June 1st and thereafter 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be limited to a diversion of not to exceed 1 acre foot per acre for each acre irrigated during any month prior to June 1st and shall be further limited to a total diversion of not to exceed 4 acre feet per acre for each acre irrigated during the irrigation season from April 1st to September 30th of each year, and shall also be limited to the water available at the proposed point of diversion, and shall not carry with it the right to require the wasteful use of water by others, and shall be subject to such reasonable rotation system as may be ordered by the proper State officer.

The priority date of this permit is October 27, 1937

Actual construction work shall begin on or before March 31, 1939 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1940

Complete application of the water to the proposed use shall be made on or before October 1, 1941

WITNESS my hand this 31st day of March, 1938
