PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to existing rights and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.0 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from

South Fork of Mary's River, (Greasy Creek) and Rock Creek

The use to which this water is to be applied is Irrigation

If for irrigation, this appropriation shall be limited to 1/30th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion at the stream of not to exceed one acre foot per acre for each acre irrigated during any 30-day period and shall be still further limited to a diversion at the stream of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year, being 1/30th of one cubic foot per second per acre from each stream, providing that the total quantity of water appropriated under this right and any other rights from either or all three of the above sources shall not at any time exceed the quantity allowed herein, and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is June 30, 1938

Actual construction work shall begin on or before August 20, 1939 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1940

Complete application of the water to the proposed use shall be made on or before October 1, 1941

WITNESS my hand this 20th day of August, 1938
