Remarks: This ditch is rather long and runs thru very porous gravelly soil
and the ditch looses at least 1/2 the water before it gets to the lots so an
extra large amount has to be diverted at the head in order to reach the land.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to existing rights and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.0 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Seepage and Deschutes River

The use to which this water is to be applied is Irrigation and Domestic, being 0.50 c.f.s. for irrigation and 0.50 c.f.s. for Domestic.

If for irrigation, this appropriation shall be limited to 1/40th of one cubic foot per second or its equivalent for each acre irrigated from May 23rd to August 20th of each year, 1/80th of one cubic foot per second or its equivalent for each acre irrigated after August 20th of each year and shall be further limited to a diversion of not to exceed 4 acre feet per acre for each acre irrigated during the irrigation season from April 1st to November 1st, and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is August 25, 1938

Actual construction work shall begin on or before November 28, 1939 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1940

Complete application of the water to the proposed use shall be made on or before October 1, 1941

WITNESS my hand this 28th day of November, 1938.
