Remarks: 240 ft. of one inch pipe ca	arries the water from the new spring					
to the old tank with a 30 ft. head. The	water runs free into the old tank at					
all times. The dam is made of concrete an	nd has but a few gallon capacity.					
This new water right is to supplement the	present system as not enough water					
can be obtained from the present system.	The present system is filed in the					
name of the First National Bank of Tillame	ook.
