PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.37 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Drainage Ditch No. 7 and West Fork of Dairy Creek.

The use to which this water is to be applied is Irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year, and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. This appropriation shall also be limited to the use of water from Drainage Ditch #7 whenever such water is available, and water shall be appropriated from West Fork of Dairy Creek only at such times as there is less than 0.37 second foot of water available in Drainage Ditch #7, and in an amount not to exceed the quantity required to make up such deficiency; in no case shall the total quantity from both sources exceed 0.37 second foot at any time.

The priority date of this permit is January 5, 1939

Actual construction work shall begin on or before February 14, 1940 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1940

Complete application of the water to the proposed use shall be made on or before October 1, 1941

WITNESS my hand this 14th day of February, 1939.
