Remarks: The application for appropriation of water is to be distributed
among four homes that have been served water from the springs hereon named and re-
ferred to for about 30 years.

I am going to improve the reservoir by constructing a concrete one with
a 100 feet section of 2" pipe for main to connect the present service pipes (branch
lines) consisting of 1/2 inch and 3/4 inch pipes. Before doing this work, I wish to
be protected with a water right to the springs above named. All the named users of
this water will share cost of improvements equally and no one is to be compensated
for any privilege after this application has been granted.
