* APPLICATION FOR A PERMIT CERTIFICATE NO. 14531

To Appropriate the Public Waters of the State of Oregon

I, Clayton Knodell (Name of applicant)
of Enterprise , County of Wallowa ,
(Post office) State ofOregon, do hereby make application for a permit to appropriate the
following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:
If the applicant is a corporation, give date and place of incorporation
1. The source of the proposed appropriation is Wallowa River
(Name of stream) a tributary of Grande Ronde River
2. The amount of water which the applicant intends to apply to beneficial use is
cubic feet per second. (If water is to be used from more than one source, give quantity from each)
**3. The use to which the water is to be applied is
4. The point of diversion is located 700 ft. South and 2558 ft. East from the With the With the south of the
corner of Section 30, (Section or subdivision)
(If preferable, give distance and bearing to section corner)
(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)
being within the $\frac{NE_{4}^{\perp}}{SW_{4}}$ of Sec. 30 , Tp. 1 S. (Give smallest legal subdivision)
R. 44 E. W. M., in the county of Wallowa
5. The Emmons & Fitzpatrick Ditch to be lamiles
(Main ditch, canal or pipe line) (Miles or feet) in length, terminating in the $SE^{\frac{1}{2}} NW^{\frac{1}{2}}$ of Sec. 25 , $Tp.$ 1 S. (Smallest legal subdivision) (N. or S.)
R43 E, W. M., the proposed location being shown throughout on the accompanying map. (E. or W.)
DESCRIPTION OF WORKS
Diversion Works—
6. (a) Height of dam
18 feet; material to be used and character of construction _Loose rock and brush wing
dam. Same dam as used by the Emmons-Fitzpatrick Ditch
rock and brush, timber crib, etc., wasteway over or around dam)
(b) Description of headgate Lumber. Same headgate as used by the Emmons Fitzpatric
(Timber, concrete, etc., number and size of openings) Ditch. One opening, size 3' x 2'.
(c) If water is to be pumped give general description(Size and type of pump)
(Size and type of pump)
(Size and type of engine or motor to be used, total head water is to be lifted, etc.)
\$ A different form of application is mounted whose storage works are contamilated

### Speet; depth of water 1½ feet; grade 3.8 feet full per constant feet. (b) At 1½ miles from headgate: width on top (at water line) 1½ feet; width on bottom 1 feet; depth of water 1 feet; width on bottom 1 feet; depth of water 1 feet; width on bottom 1 feet; depth of water 1 feet; width on bottom 2 feet; depth of water 1 feet; width on bottom 2 feet; depth of water 1 feet; width on bottom 1 feet; depth of water 1 feet; width on bottom 1 feet; depth of water 1 feet; depth of water 1 feet; depth of pipe, ft.; size at intake, in.; size at feet; width on bottom feet; with the minimum of the water feet; width on bottom feet; with the minimum of water feet; with the minimum of water feet; with the power is to be developed feet; with the water feet; with the power feet	usand feet.
