Remarks: As stated above this spring has been used by the town of Granite for a number of years, with no one in particular claiming title to the spring. Work has been done at various times by contributed labor and the city spent several hundred dollars for pipe line, etc. This ground is within the incorporated limits of the town, but has not been platted. We spent \$300.00 for excavating the present reservoir which replaces a small one which was discontinued.
