* APPLICATION FOR A PERMIT

To appropriate the Public Waters of the State of Oregon

I, Wilbur D. Staats (Name of applicant) of Route 8, Box 1812, Portland (Post office), County of Washington State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is Fanno Creek (Name of stream), a tributary of Tualatin

2. The amount of water which the applicant intends to apply to beneficial use is .0344 cubic feet per second. (If water is to be used from more than one source, give quantity from each)

**3. The use to which the water is to be applied is irrigation (Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located 100 ft. west (N. or S.) from the corner of intersection of County Road 160 and Fanno Creek in the N 1/2 of the NW 1/4 of the SE 1/4 of Section 23, Township 1 S, Range 1 W (Section or subdivision) (If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary) being within the N 1/2 of the NW 1/4 of the SE 1/4 of Sec. 23, Tp. 1 S, R. 1 W, W. M., in the county of Washington (Give smallest legal subdivision) (E. or W.)

5. The (Main ditch, canal or pipe line) to be (Miles or feet) in length, terminating in the (Smallest legal subdivision) of Sec. (N. or S.), R. (E. or W.), W. M., the proposed location being shown throughout on the accompanying map.

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam feet, length on top feet, length at bottom feet; material to be used and character of construction None (Loose rock, concrete, masonry, rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate None (Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description, Portable half-horse electric motor with close-coupled gear pump. Pump has two outlets for 3/4 inch garden hose, and I have about 300 feet of garden hose. Maximum water lift about six feet.

* A different form of application is provided where storage works are contemplated. ** Applications for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydro-electric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) None feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(b) At None miles from headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(c) Length of pipe, _____ ft.; size at intake, _____ in.; size at _____ ft. from intake _____ in.; size at place of use _____ in.; difference in elevation between intake and place of use, _____ ft. Is grade uniform? _____ Estimated capacity, _____ sec. ft. 300 ft 3/4 inch garden hose.

8. Location of area to be irrigated, or place of use _____

Township	Range	Section	Forty-acre Tract	Number Acres To Be Irrigated
<u>1 S</u>	<u>1 W</u>	<u>23</u>	<u>NWSE</u>	<u>2 3/4 acres</u>
			<u>(See Extra Sheet)</u>	

(If more space required, attach separate sheet)

(a) Character of soil Clay loam
 (b) Kind of crops raised Garden truck and pasture

Power or Mining Purposes—

9. (a) Total amount of power to be developed _____ theoretical horsepower.
 (b) Quantity of water to be used for power _____ sec. ft.
 (c) Total fall to be utilized _____ feet.
 (Head)
 (d) The nature of the works by means of which the power is to be developed _____

(e) Such works to be located in _____ of Sec. _____, Tp. _____, R. _____, W. M. _____
 (Legal subdivision)

(f) Is water to be returned to any stream? _____ (Yes or No)
 (g) If so, name stream and locate point of return _____
 _____, Sec. _____, Tp. _____, R. _____, W. M. _____
 (No. N. or S.) (No. E. or W.) (No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is _____

 (i) The nature of the mines to be served _____

ITEM 8 CONTINUED:

Beginning at an iron pipe set on the West boundary of the road at the Northeast corner of the John C. DeHaan tract as described in a deed from Johanna Feldmann et al to said John C. DeHaan, as recorded in Deed Book 138, page 155; thence Westerly along the North line of said tract so described 120.9 feet to the center of Fanno Creek; thence following up the meanderings of said Fanno Creek to where the West boundary line of County Road No. 160, also known as the Garden Home Road, is intersected by the center line of said creek; thence Northwesterly along said West boundary line 60.3 feet to an iron pipe set at an angle in the boundary of said road; thence North along the West boundary line 110.8 feet to the place of beginning; all of said land being in Section twenty-three (23), Township one (1) South, Range one (1) West of the Willamette Meridian, in Washington County, Oregon;

ALSO, commencing at an iron pipe at a point on the West line of said J. C. DeHaan land, said point being North $00^{\circ} 33'$ East 29.25 chains, and North $67^{\circ} 38'$ East 9.50 chains from the quarter section corner on the South boundary of Section twenty-three (23), Township one (1) South, Range one (1) West of the Willamette Meridian, and running thence North $16^{\circ} 18'$ West along the West line of said DeHaan land 97.6 feet to the Southwest corner and point of beginning of land herein described; thence from said beginning point South $88^{\circ} 38'$ East 363.92 feet to a point on the Westerly line of County Road; thence following said road line North $00^{\circ} 26'$ West 144.3 feet to an iron bolt at angle in said road boundary; thence continuing along said road boundary North $80^{\circ} 46'$ West 194.3 feet to an iron pipe at angle in said road boundary; thence along said road boundary North $42^{\circ} 49'$ West 29.9 feet to an iron rod on bank of Fanno Creek; thence continuing North $42^{\circ} 49'$ West twenty-one feet, more or less, to the center of said Fanno Creek; thence following down the center of said Fanno Creek with all the meanderings thereof in a Southwesterly direction; thence in a Westerly and Northerly direction a distance of four hundred (400) feet, more or less, to the recognized South boundary of the Thos. Denny D.L.C. No. 47, being the South line of said Claim as established in Washington County Survey No. 792; thence North $89^{\circ} 10'$ West along said claim line twenty-three (23) feet, more or less, to an iron pipe; thence continuing along said Claim line North $89^{\circ} 10'$ West eighty-eight (88) feet to an iron pipe at the Northwest corner of said DeHaan land, being a point on the East line of the McKay lands; thence along the West line of said DeHaan lands South $16^{\circ} 18'$ East 364.3 feet to the place of beginning; Subject to the rights of the Public in and to any portion thereof which may lay within the boundaries of any roads or highways; EXCEPT that portion of said last described tract which lies Easterly of the new state highway crossing said premises,

Municipal or Domestic Supply—

10. (a) To supply the city of

..... County, having a present population of

(Name of)

and an estimated population of in 19.....

(b) If for domestic use state number of families to be supplied

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$.....

12. Construction work will begin on or before All necessary construction completed.

13. Construction work will be completed on or before

14. The water will be completely applied to the proposed use on or before

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same,
SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use
and shall not exceed 0.0344 cubic feet per second measured at the point of diversion from the
stream, or its equivalent in case of rotation with other water users, from Fanno Creek

The use to which this water is to be applied is Irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per
second or its equivalent for each acre irrigated and shall be further limited to a
diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the
irrigation season of each year,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is June 2, 1944

Actual construction work shall begin on or before July 10, 1945 and shall
thereafter be prosecuted with reasonable diligence and be completed on or before
October 1, 1946

Complete application of the water to the proposed use shall be made on or before
October 1, 1947

WITNESS my hand this 10th day of July, 1944
