1. The source of the proposed appropriation is unnamed creek running through the plat of Norwood as shown on plot plan attached, a tributary of

2. The amount of water which the applicant intends to apply to beneficial use is 0.07 cubic feet per second. sufficient amount for seven (7) dwellings

**3. The use to which the water is to be applied is domestic supplies

4. The point of diversion is located 600 ft. N and 925 ft. W from the SE corner of Sec. 29, T. 17 S., R. 9 W., W.M.

being within the SE SE of Sec. 29, Tp. 17 S, R. 9 W, W. M., in the county of Lane

5. The to be in length, terminating in the of Sec. Tp. R. W. M., the proposed location being shown throughout on the accompanying map.

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam 4 feet, length on top 16 feet, length at bottom 16 feet; material to be used and character of construction concrete (reinforced) battered wall 6" at top, 8" at bottom. One abutment on each side of gate with overflow in gate, conc. & Rock spillway. Concrete floor inside of Dam.

(b) Description of headgate 1 concrete. 12" wide and same height as dam

(c) If water is to be pumped give general description

* A different form of application is provided where storage works are contemplated.

** Applications for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydro-electric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

8. Location of area to be irrigated, or place of use

Township	Range	Section	Forty-acre Tract	Number Acres To Be Irrigated
17 S	9 W	29	SE $\frac{1}{4}$ SE $\frac{1}{4}$	
<p>Property on which water is to be used is more explicitly described below:..... Beginning at the intersection of the Northerly, or Easterly line of County Road No. 109, with the Southerly or Westerly line of the Willamette Valley-Florence Highway, in Section (29) Township (17), South Range (9) W. WM Lane County, Oregon. And running thence Southerly along said Northeasterly line of County Road No. 109, to the Northerly bank of Lake Creek, thence following said North bank in a Northeasterly direction to it's intersection with the most Northerly boundary line of the plat of Norwood if extended, thence South 87° 43" West along said Northernly line of said plat of Norwood, if extended to it's interesection with the South, or East line of the Willamette Valley-Florence Highway thence South westerly along said Willamette Florence Highway to the place of beginning. Containing (7) acres, more or less, all in Lane County, State of Oregon.</p>				

(If more space required, attach separate sheet)

(a) Character of soil

(b) Kind of crops raised

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower.

(b) Quantity of water to be used for power sec. ft.

(c) Total fall to be utilized feet.
(Head)

(d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in of Sec.
(Legal subdivision)

Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream?
(Yes or No)

(g) If so, name stream and locate point of return

....., Sec., Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

Municipal or Domestic Supply—

10. (a) To supply the city of

..... County, having a present population of

(Name of)

and an estimated population of in 19.....

(b) If for domestic use state number of families to be supplied 7

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$ 100.00

12. Construction work will begin on or before Sept. 20, 1944

13. Construction work will be completed on or before Sept. 30, 1944

14. The water will be completely applied to the proposed use on or before Jan. 1st, 1945

(2) (Name) (Address of witness)

Remarks: I am attaching a letter giving the legal description of our land from our deed, and a plot plan that I have made up, from the Plat of Norwood showing the location of the stream and the approximate location of the proposed dam. Would you be so kind to fill in the legal descriptions from the above information for me, as I do not understand that sort of thing enough to do it? Mr. Peckham, (I note location of his dwelling in red crayon), has a dam at the exact location that we propose to build the new one. It is agreeable to him that we tear out his old dam and build a new one and that he will hook onto the new one, thus not changing the status of his water right. I have read the above and it is perfectly agreeable to me,

STATE OF OREGON, } Signed: (Sgd) H. D. Peckham & Donald S. Thomason
County of Marion, } ss

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before, 194.....

WITNESS my hand this day of, 194.....
