Remarks: The applicant represents a syndicate which is acquiring substantial acreage in Sections 3, 4, 9, 10, Twp. 1 S., R. 1 W.W.M. in Washington County, Oregon, for post-war construction of approximately 2,000 dwelling houses. This application is for the purpose of gaining priority of date and to assure the supply of water of this spring (to the extent not previously appropriated) will be held available for the use of these dwelling houses. Preliminary work toward perfecting the water right will be done at once and will consist of enlargement of the spring. We have not yet determined the type of impoundment to be employed nor the type of distribution system. We own the land upon which the spring rises and desire by this application to protect it from appropriation by strangers until such time as our building plans have been developed further.
