.....
(Signature of applicant)

.....

Remarks: The ditch diverting this water from the old water course, which carries off waste waters from lands in Section 10 and 15 3 S. 45 south and west of the lands to be irrigated, has already been constructed and with some additional improvement will be put in use. No headgate is necessary since the ditch will draw the water from the old water course to the lands to be irrigated. The water has been used beneficially heretofore, but no appropriation has been requested and no application for permit made. My intention is to obtain permit for this waste water during season of irrigation, no stock or domestic use will be made, since the water will be available onldy during season when irrigation is heavy on the higher lands south of the lande to be irrigated.
