

* APPLICATION FOR PERMIT

CERTIFICATE NO. 20827

To appropriate the Public Waters of the State of Oregon

I, We, Canyon Creek Lumber Co., Inc. (Name of applicant)

of Canyonville, Douglas County, (Mailing address)

State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation State of Oregon

Douglas County. Date April 8th., 1946.

1. The source of the proposed appropriation is South Umpqua River (Name of stream), a tributary of

2. The amount of water which the applicant intends to apply to beneficial use is 1300 gallons per minute during summer, when seepage is high and until pond gets mud and silt cubic feet per second. silt enough to assist in preventing seepage. (If water is to be used from more than one source, give quantity from each)

**3. The use to which the water is to be applied is To fill a log Pond for the storing of (Irrigation, power, mining, manufacturing, domestic supplies, etc.) logs for a sawmill and for use as a supply to fight fire in the sawmill

4. The point of diversion is located N. or S. E. or W. from the

corner on the west side of the South Umpqua River, Sec. 21, Twp. 30 S., Rge. 5 W.M.M., Douglas County, at a point 1,331 feet S. 4° E. of the common corner Sec. 16, 17, 20, 21, Twp. 30 S., Rge. 5 W.W.M., Douglas County, Oregon. Both pumps sit on river bank and hose is put directly in the river. The pumps sit 50 feet apart.

(If preferable, give distance and bearing to section corner)

Each pump is placed on a sled so that when high water comes, we can pull up on the bank one point of diversion, each must be described. Use separate sheet if necessary

being within the SW 1/4 NW 1/4 of Sec. 21, Tp. 30 S. (Give smallest legal subdivision) (N. or S.)

R. 5 W., W. M., in the county of Douglas (E. or W.)

5. The flexible rubber suction Hose to be 50 feet (Main ditch, canal or pipe line) (Miles or feet)

in length, terminating in the NE 1/4 of NE 1/4 of NE 1/4 of Sec. 20, Tp. 30 S. (Smallest legal subdivision) (N. or S.)

R. 5 W., W. M., the proposed location being shown throughout on the accompanying map. (E. or W.)

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam none feet, length on top feet, length at bottom feet; material to be used and character of construction (Loose rock, concrete, masonry,

rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate None (Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description One Electric powered pump with (Size and type of pump)

4 inch outlet and one Gas powered pump with 6 inch outlet. The gas (Size and type of engine or motor to be used, total head water is to be lifted, etc.)

powered pump will be replaced by an Electric pump as soon as available.

*A different form of application is provided where storage works are contemplated.

**Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Beginning at a point 30 feet east and 226 feet 3.44 chains west of the Northeast corner of the N.P. Briggs D.L.C. No. 46, in Township thirty (30) South of Range five (5) West of Willamette Meridian, Section No. 21, which is 18 feet north of Pacific Telephone and Telegraph Company pole number 1960, and running in an easterly line along the drift fence on which the California Oregon Power Company power poles numbered 1334, 1333, and 1328 are situated, to the west bank of the South Umpqua River; thence following the west bank of the South Umpqua River in a northwesterly direction to the drift fence which encloses the walnut and orchard known as the "Island;" thence along drift fence in a westerly direction to the east line of the N.P. Briggs D.L.C. No. 46; thence west to the point of beginning;

Together with a certain parcel of real property known as the "potato patch" and situate directly South of Lessors' north line and between the mill pond and the South Umpqua River, and which said parcel extends South to within twenty (20) feet from the Lessors' walnut trees on a tract of land known as the "Island", and which said parcel consists of approximately one and onehalf ($1\frac{1}{2}$) acres,

All in Douglas County, State of Oregon.

That certain tract of land situated between the North line of the N P Briggs Donation Land Claim No. 46, Township 30 South, Range 5 West, Willamette Meridian, and the South or left bank of the South Umpqua River which is described as follows: Beginning at the Northeast corner of the N P Briggs Donation Land Claim No. 46, Township 30 South, Range 5 West, Willamette Meridian; and running thence West along the North line of said claim 13.89 chains to the Northwest corner of said claim at the Southwest corner of Lot 4, Section 20; thence North 3.0 chains along the West side of said Lot 4 to a point on the South or left bank of the South Umpqua River at low water level; thence running along said bank of river upstream S 86° 53' E 4.96 chains and S 76° 40' E 9.18 chains to a point opposite the Northeast corner of said Donation Land Claim; thence South 0.61 of a chain to the place of beginning, containing 2.9 acres, more or less.

Municipal or Domestic Supply—

10. (a) To supply the city of

..... County, having a present population of

(Name of)

and an estimated population of in 19.....

(b) If for domestic use state number of families to be supplied

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$.....

12. Construction work will begin on or before

13. Construction work will be completed on or before

14. The water will be completely applied to the proposed use on or before

CANYON CREEK LUMBER CO., INC.

(Signature of applicant)

(Sgd) F. W. Cooper -- Pres.

Remarks: The sawmill for which this water is to be used is a new 50,000 foot capacity mill, fully electrically powered and is located between Highway # 99 and the South Umpqua River.

The Pond is built in an old river bed and runs parellel to the river, being well dyked along the river on the east end. This pond is built on the Lois M and Huron Clough place on part of the J.A. Briggs D.L.C. # 47 in Sec. # 21 - T 30 S - R 5 W.W.M. and part on the old Nath. P. Briggs D.L.C. #46 in Sec. # 20 - T 30 S- R 5 W.W.M.

We have lovated both pumps about 50 feet aprt on the river bank and have put a 50 foot length of flexible suction hose into the South Umpqua River and the outlet runs from a length of flexible hose into a 50 foot length of iron pipe directly into the Pond.

Both pumps are powered with 15 H.P. Motors., the one gas pump which is temporary has a Hercules Gas Engine on it for power.

We are unable to figure the cubic foot taken but the 4 inch pump reads 550 gals. per minute at 88 Head and the 6 inch reads 750 gals. per minute at 88 head.

We are pumping the water we use on a lift of approximately 20 feet and have a right angle outlet to the pumps.

To fill a log pond, approximately 6 acres in area, for the storing of logs for a sawmill and for use as a supply to fight fire in the sawmill.

The level of the water below the natural ground surface is approximately three feet. The depth of the pond is approximately forty inches.

STATE OF OREGON,

County of Marion,

} ss

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for Completion.

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before November 5, 1946.

WITNESS my hand this 5th day of October, 1946.
