(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$ 350

12. Construction work will begin on or before the 22 and of Sept

13. Construction work will be completed on or before Oct. 15th

14. The water will be completely applied to the proposed use on or before Jan. 1st

City of Granite

(Signature of applicant)

by

(Sgd) J. W. Tabor Agent

Remarks: This ditch was dug 40 years ago to supply the City of Granite, but an error was made, and was 10 or 12 ft. to low for the old city reservoy. so was neve used by any one The sheep men let their sheep run over the ditch filling it up badly.

As to the population in 1960 will be very uncertain, as mining camps are very uncertain at present there is only one property under operation but as soon as supplies are available there will be more several mining Co. are waiting for supplies

The city started cleaning the ditch before a permit was granted because the city has not enough water to meet the demands of its people. the spring that furnished the water is drying up very fast.

PERMIT

STATE OF OREGON, County of Marion, ss

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.00 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Boulder Creek

The use to which this water is to be applied is municipal

If for irrigation, this appropriation shall be limited to of one cubic foot per second

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is October 2, 1946

Actual construction work shall begin on or before April 15, 1948 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1949

Complete application of the water to the proposed use shall be made on or before October 1, 1950

WITNESS my hand this 15th day of April, 1947

CHAS. E. STRICKLIN

STATE ENGINEER
