Remarks: This project is in Sec. 29, T. 17 S., R. 9 W., W.M. and is not on the same creek used by the Southern Pacific Co. or Mr. Donald S. Thomason in their recorded water rights.

To our knowledge, Mr. Sam Haywood Lynch has the only water right now recorded on this stream.

The properties figuring in this application have been using water from this stream since approximately 1916, which is previous to any other known users.

The old water system that has been used up until now is in need of replacement.

The dam to be constructed will only hold about 5,000 gallons, its main value will be its use as a settling basin.
