

CERTIFICATE NO. 19696

* APPLICATION FOR PERMIT

To appropriate the Public Waters of the State of Oregon

I, George & Estrid Roslington, of Route 1, Box 154, Rogue River, Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation No

1. The source of the proposed appropriation is Evans Creek, a tributary of Rogue River

2. The amount of water which the applicant intends to apply to beneficial use is 50 gal per minute cubic feet per second.

**3. The use to which the water is to be applied is Irrigation only

4. The point of diversion is located Beginning at a point on the County Road 500 ft. East of the Northeast corner of the Southwest Quarter of the Southeast Quarter, Section 10, TWP 35 S., SR 4 WWM; and 830.5 ft. West of the Northeast Corner of the Southeast Quarter of the Southeast Quarter of Section 10, TWP 35 S. Range 4 West WM; and then at right angles to the said County Road and parallel to the west line of the Real Estate described herein (See Answer to Question 8) until it reaches center Evans Creek, a tributary to Rogue River.

being within the of Sec. Tp. R. W. M., in the county of Jackson

5. The pipe to be 200 ft. in length, terminating in the SE 1/4 of SE 1/4 of Sec. 10, Tp. 35 S. R. 4 W. W. M., the proposed location being shown throughout on the accompanying map.

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam None feet, length on top feet, length at bottom feet; material to be used and character of construction

(b) Description of headgate

(c) If water is to be pumped give general description 1 hp centrifugal Elec 110 V 25 ft. head. 200' level flow in 1 1/2" pipe

*A different form of application is provided where storage works are contemplated.

**Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, 200 ft.; size at intake, 1½ in.; size at 200 ft. from intake 1½ in.; size at place of use 1" in.; difference in elevation between intake and place of use, 25 ft ft. Is grade ~~uniform?~~ ^{level} yes except Estimated capacity, for lift, sec. ft.

8. Location of area to be irrigated, or place of use 25' | ^{Land 200'} Stream

Township	Range	Section	Forty-acre Tract	Number Acres To Be Irrigated
Beginning at a point 636 feet East of the Northeast Corner of the Southwest Quarter of the Southwest Quarter of the Southeast Quarter of Section 10, Township 35 South, Range 4 West of the Willamette Meridian in Jackson County, Oregon; and thence South 265 feet, more or less, to the center of Evans Creek, and is also Damons Southwest Corner thence South 49 degrees 25' West, along center of Evans Creek, 274.8 ft.; thence North 443.77 feet to the center of the County Road; thence East, along the County Road, 208.71 feet to the place of beginning, excepting therefrom the East 11.16 feet.				
Located in				
35 S.	4 W.	10	SE¼ SE¼	1.69 one and sixty nine hundredths acres.

(If more space required, attach separate sheet)

(a) Character of soil River Bed (old)

(b) Kind of crops raised Berries

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower,

(b) Quantity of water to be used for power sec. ft.

(c) Total fall to be utilized feet.
(Head)

(d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in of Sec.
(Legal Subdivision)

Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream?
(Yes or No)

(g) If so, name stream and locate point of return

....., Sec., Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

10104
12/12/48

Municipal or Domestic Supply—

10. (a) To supply the city of
..... County, having a present population of
(Name of)
and an estimated population of in 19.....

(b) If for domestic use state number of families to be supplied

(Answer questions 11, 12, 13, and 14 in all cases)

- 11. Estimated cost of proposed works, \$... 350.00.....
- 12. Construction work will begin on or before As soon as permit is received.....
- 13. Construction work will be completed on or before 30 days thereafter.....
- 14. The water will be completely applied to the proposed use on or before July 1, 1948.....

(Sgd) George Roslington
(Signature of applicant)

(Sgd) Estrid Roslington

Remarks: In connection with this application, and as additional information thereto, the owners of the Real Estate described desire to operate a 1 horsepower centrifugal pump at a point about 200 feet from Evans Creek, and connected with the Creek at location described in paragraph 4, by 1½ galvanized iron pipe, extending into the creek the requisite number of feet to obtain efficient results.

This equipment is expected to pump about 3000 gals. per hour, with a lift of 20 - 25 ft and a level length of pipe about 200 ft. as above described. The water is to be used for domestic irrigation purposes, only, on a tract of land 1.69 acres used as a berry farm.

The domestic water for the residence located thereon is obtained from a 65 ft. drilled well, which gives sufficient water for domestic purposes, but not for irrigation.

This application is, therefore, intended to be for the amount of water above described as an answer to Question 2 hereof.

The cost of the pump and pipe and possibly a pressure tank used in connection therewith will be about \$350.00. It is not intended to erect a dam.

I am proposing to use 1½ inch pipe with about 20 lb. pressure rather than a smaller pipe with more pressure, and while the amount of water applied for is more than commonly required per acre, berries are a concentrated crop and the irrigation of them requires excess water for a very short time. We don't expect to utilize this water over 10 hours a week, and if there is any limitation necessary, although I hope not, I would much rather have it as a time limit than as a quantity limit.

STATE OF OREGON, }
County of Marion, } ss

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion.....

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before April 12....., 1948.

WITNESS my hand this 12th..... day of March....., 1948.

CHAS. E. STRICKLIN
STATE ENGINEER

By

PERMIT

STATE OF OREGON, } ss
County of Marion, }

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.021 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Evans Creek

The use to which this water is to be applied is Irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 1/8 acre feet per acre for each acre irrigated during the irrigation season from April 2, to October 13, of each year,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is March 10, 1948

Actual construction work shall begin on or before April 30, 1949 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1950

Complete application of the water to the proposed use shall be made on or before October 1, 1951

WITNESS my hand this 30th day of April, 1948

CHAS. E. STRICKLIN
