Remarks: This application is in lieu of Permit No. 17270 which is hereby authorized for cancellation. However, this application is for an additional supply of water for the system described under Permit No. 16155 issued to Lotus F. & Hortense O. Gartin and assigned to the above named applicants. The spring supplying water designated in Permit No. 16155 has proved inadequate for anything more than the supply of domestic water for the household uses. Consequently, this application is for creek water to be pumped into the already laid pipe lines of Permit No. 16155 and for the extension of such lines. The main cost is in the installation of the stationary pump as described on the first page of this application.
