Remarks: The applicants for this water right are already using the water from this source through a pipe line which was laid jointly by themselves, James Wilson and Mr. Smallhurst, who occupies the property formerly owned by Wilson who filed the original water right. The pipe line has been in place for some time, but the dam requires reconstruction, and the applicants have not yet provided the sprinkling facilities for using the water for irrigation as intended. Lines will have to be laid to reach a part of the lands before sprinkling can start. It is the intention of the two applicants, that they will have a joint water right, share and share alike in any case of shortage of water. The successor to the original user, Mr. Smallhurst, is still using water for his lands from the present system, and retains his rights thereunder.
