

* APPLICATION FOR A PERMIT

To appropriate the Public Waters of the State of Oregon

I, Con. Lynch (Name of applicant)

of Lakeview (Post office), County of Lake State of Oregon

do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is Honey Creek (Name of stream)

a tributary of Hart Lake

2. The amount of water which the applicant intends to apply to beneficial use is 51.5

cubic feet per second. (If water is to be used from more than one source, give quantity from each)

**3. The use to which the water is to be applied is Irrigation (Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located 600 ft. N. and 600 ft. E. from the S.W. corner of S.W.-N.W. sec. 28 (N. or S.) (E. or W.)

(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the S.W.-N.W. of Sec. 28, Tp. 36 S. (Give smallest legal subdivision) (N. or S.)

R. 24 E., W. M., in the county of Lake (E. or W.)

5. The Canal (Main ditch, canal or pipe line) to be 4.5 miles (Miles or feet)

in length, terminating in the S.E.-S.E. of Sec. 10, Tp. 36 (Smallest legal subdivision) (N. or S.)

R. 24 E., W. M., the proposed location being shown throughout on the accompanying map. (E. or W.)

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam 4 feet, length on top 50 feet, length at bottom

50 feet; material to be used and character of construction rock and concrete (Loose rock, concrete, masonry,

rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate Rock and Concrete (Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description (Size and type of pump)

(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

* A different form of application is provided where storage works are contemplated.

** Applications for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydro-electric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

8. Location of area to be irrigated, or place of use

(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

Municipal or Domestic Supply—

10. (a) To supply the city of

..... County, having a present population of

(Name of)

and an estimated population of in 19.....

(b) If for domestic use state number of families to be supplied

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$.....2500.....

12. Construction work will begin on or before Nov. 1, 1945.....

13. Construction work will be completed on or before June 1, 1948.....

14. The water will be completely applied to the proposed use on or before Sept. 1, 1948.....

(Sgd) Con Lynch.....
(Signature of applicant)

Remarks: "The ditch specifications vary, depending upon the topography, but Mr. Lynch says that these specifications apply to the greater portion of the ditch, namely, bottom width, 15 feet; width at top, 30 feet; depth of water carried in the ditch varies some 3 to 6 feet in depth, according to the topography, while the length of the ditch is approximately 3 miles....."

The following information as to the grade of said canal was furnished me by Phil Smith, the county water master, and by Walter Sanquist, a local registered engineer, who surveyed the ditch. These gentlemen state that the grade is approximately a 10th of a foot per hundred feet. Mr. Lynch has authorized me to convey this information to you so that the information can be included in his original application."

This land has a water right from Hart Lake. This application is for a supplemental right.

PERMIT

STATE OF OREGON, } ss County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 51.50 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Honey Creek

The use to which this water is to be applied is supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/40th of one cubic foot per second or its equivalent for each acre irrigated prior to June 15, and 1/80th of one cubic foot per second or its equivalent for each acre irrigated after June 15, and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated throughout the irrigation season, from March 1, to October 1, of each year; provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is June 29, 1948

Actual construction work shall begin on or before November 17, 1949 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1950

Complete application of the water to the proposed use shall be made on or before October 1, 1951

WITNESS my hand this 17th day of November, 1948
