Remarks: This is an existing water system having been constructed and in use for several years. The present diversion works is a simple rock catch basin with one 1" pipe and one 3/4" (plugged) pipe leading 260 feet to a 2200 gal. round, redwood storage tank, from this tank a 2" pipe line 930 feet to barns for stock use. At 150 feet from the storage tank a 1" pipe leaves the 2" line and extends 190 feet to the dwellings. There are at present two occupied dwellings and a third house is contemplated.

It is proposed to construct a new concrete box catch basin at the point of diversion and to rehabilitate the pipe lines extending from the point of diversion to the storage tank. The tank and pipe lines leading therefrom are in excellent condition.
