## \* APPLICATION FOR PERMIT

## To Appropriate the Public Waters of the State of Oregon

| I, Geo. M. Wilcox and Son (Name of   | applicant)                      |                                 |
|--|---------------------------------|---------------------------------|
| ofOakland  |                                 | ,                               |
| State ofOregon, do hereby  | y make application for          | a permit to appropriate the     |
| following described public waters of the State of Orego  | on, SUBJECT TO EXI              | STING RIGHTS:                   |
| If the applicant is a corporation, give date and pla   | ce of incorporation             |                                 |
| 1. The source of the proposed appropriation is   |                                 |                                 |
| , a tributar   | ,                               |                                 |
| 2. The amount of water which the applicant inten   | ds to apply to benefic          | ial use is .0.63                |
| cubic feet per second. (If water is to be used from  | om more than one source, give q | uantity from each)              |
| **3. The use to which the water is to be applied is  | Irrigatio                       |                                 |
| 4. The point of diversion is located <del>ft-</del>  | and (N. or S.)                  | ftfrom the                      |
| corner-of anywhere along stream between two p  | oints located as.               | follows: N. 37° 15!W            |
| 190.5 ft. and N. 67. 45! E. 1464.9 ft. to th   |                                 |                                 |
| R. 6 W.  |                                 |                                 |
| (If preferable, give distance and be composed by the county of the count | oe described. Use separate shee |                                 |
| 5. The(Main ditch, canal or pipe line)   | to be                           | /Miles on footh                 |
| in length, terminating in the(Smallest legal subdivision)  |                                 |                                 |
| R, W. M., the proposed location being s  |                                 |                                 |
| DESCRIPTION  | OF WORKS                        |                                 |
| Diversion Works—   |                                 |                                 |
| 6. (a) Height of damNone feet, leng  | gth on top                      | feet, length at bottom          |
| feet; material to be used and character  | of construction                 | (Loose rock, concrete, masonry, |
| rock and brush, timber crib, etc., wasteway over or around dam)  |                                 |                                 |
| (b) Description of headgate  | ber, concrete, etc., number and | size of openings)               |
| (c) If water is to be pumped give general descript   | tion 2 in cent.                 | plimp<br>and type of pump)      |
| 10 HP electric motor (Size and type of engine or motor to be used,   |                                 |                                 |
| 23 - 6 gpm sprinklers  |                                 |                                 |

<sup>\*</sup> A different form of application is provided where storage works are contemplated.

<sup>\*\*</sup> Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.
