Remarks: **I have a small ditch running from the unused springs to the land, but it only runs water in the spring of the year to the mouth of the canyon, but by making the ditch, it runs a very small stream to the land in question. I intend to pipe it as soon as I can afford it which will cost a mile of 2 in. pipe. By blowing the springs out for a wood road some years ago, it increased the water enough to run on the land by digging the ditch.**
