* APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Oregon

I. FOREST VIEW CELETERY CO. (Name of applicant)
of Forest Grove, Oregon
State of Oregon , do hereby make application for a permit to appropriate the
following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:
If the applicant is a corporation, give date and place of incorporation
Forest Grove Oregon under Laws of State of Oregon Oct 23rd 1935
1. The source of the proposed appropriation is Gales Creek (Name of stream)
, a tributary of
2. The amount of water which the applicant intends to apply to beneficial use is
cubic feet per second. (If water is to be used from more than one source, give quantity from each)
**2 The was to subject the swater is to be applied is irrigation
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)
4. The point of diversion is located 513.9 ft. South and 1320 ft. West from the quarter
corner on North Line of Section 1. Two 1 South, Range 4 West of the Will. Mer.
(If preferable, give distance and bearing to section corner)
(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)
being within the Northeast quarter NW1 of Sec. one , Tp. One Sth (Give smallest legal subdivision)
Rng 4 West, W. M., in the county of WASHINGTON
5. The approximately 610 feet main pipe line moder thence into underground laters (Main ditch, canal or pipe line) (Miles or feet)
in length, terminating in the SE quarter SW quarter Sec. 36 , Tp. 1 Nth (N. or S.)
Rng. l. West, W. M., the proposed location being shown throughout on the accompanying map.
DESCRIPTION OF WORKS
Diversion Works—
6. (a) Height of damNons feet, length on top Nons feet, length at bottom
feet; material to be used and character of construction None (Loose rock, concrete, masonry,
rock and brush, timber crib, etc., wasteway over or around dam)
(b) Description of headgate None (Timber, concrete, etc., number and size of openings)
(c) If water is to be pumped give general description 20 horse power Fairbanks Horse (Size and type of pump)
Centrifugal nump located in small tile structure on bank of the stream
(Size and type of engine or motor to be used, total head water is to be lifted, etc.) I believe that the lift to the Cometery gate is just over seventy feet.

^{*} A different form of application is provided where storage works are contemplated.

^{**} Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

7. (a) Give	
	gate: width on top (at water line) feet; width on bottom
fe	et; depth of water feet; grade feet fall per one
ousand feet. (b) At	miles from headgate: width on top (at water line)
je	eet; width on bottom feet; depth of water feet;
	feet fall per one thousand feet.
	of pipe. 640 ft.; size at intake, 6 inch in; size at 640 ft.
	inch in.; size at place of use $2\frac{1}{2}$, $1\frac{1}{2}$, $3/4$ " in.; difference in elevation between
	of use, 640 ft. Is grade uniform? Yes Estimated capacity,
	of area to be irrigated, or place of use
