To appropriate the Public Waters of the State of Oregon

I, A. L. Funk of P.O. Box 232 Oswego, Oregon State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation No

1. The source of the proposed appropriation is Tualatin River, a tributary of Willamette

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second.

**3. The use to which the water is to be applied is Irrigation

4. The point of diversion is located 200 ft. and 100 ft. from the corner of Section 2, Township 36N, Range 12E, Willamette Meridian, Oregon

being within the of Sec. Tp. R. W. M. in the county of

5. The to be in length, terminating in the of Sec. Tp. R. W. M., the proposed location being shown throughout on the accompanying map.

DESCRIPTION OF WORKS

Diversion Works—

6 (a) Height of dam feet, length on top feet, length at bottom feet; material to be used and character of construction

(b) Description of headgate

(c) If water is to be pumped give general description

*A different form of application is provided where storage works are contemplated. **Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, 220 ft.; size at intake, 1 1/2 in.; size at ft. from intake 1 1/2 in.; size at place of use 1/4" at sprinle; Difference in elevation between intake and place of use, 10 to 32 ft. Is grade uniform? Yes Estimated capacity, gals/minute at 40# pressure sec. ft.

8. Location of area to be irrigated, or place of use

Table with 5 columns: Township, Range, Section, Forty-acre Tract, Number Acres To Be Irrigated. Row 1: WYOMING, 2 North, E, 20, SW - N. N., 2.557

(If more space required, attach separate sheet)

(a) Character of soil (b) Kind of crops raised

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower.

(b) Quantity of water to be used for power sec. ft.

(c) Total fall to be utilized feet. (Head)

(d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in of Sec. (Legal subdivision)

Tp., R., W. M. (No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream? (Yes or No)

(g) If so, name stream and locate point of return Sec., Tp., R., W. M. (No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

Municipal or Domestic Supply—

10. (a) To supply the city of
..... County, having a present population of
(Name of) and an estimated population of in 19.....

(b) If for domestic use state number of families to be supplied

(Answer questions 11, 12, 13, and 14 in all cases)

- 11. Estimated cost of proposed works, \$.....
- 12. Construction work will begin on or before
- 13. Construction work will be completed on or before
- 14. The water will be completely applied to the proposed use on or before

A. L. Funk
(Signature of applicant)

Remarks: Description of 2.857 acre tract

A tract of land located in the Southwest one-quarter of the Northeast one-quarter of Section 20, Township 2 South, Range 1 East of the Willamette Meridian and being more particularly described as follows, to-wit:

C
O
P
Y

Beginning at a point that is North 934.44 feet distant and West 970.83 feet distant from an iron pipe located at the southeast corner of the said Southwest one-quarter of the Northeast one-quarter; from said beginning point thence South 59° 44' East 343.90 feet; thence south 350.82 feet to the ordinary high water line of the Tualatin River; thence upstream, following the ordinary high water line of the left bank, North 66° 02' 30" West 62.21 feet; thence North 84° 33' 30" West 258.24 feet; thence leaving said Tualatin River, North 2° 02' 30" East 25.00 feet to an iron pipe; thence continuing North 2° 02' 30" East 449.71 feet to the place of beginning of the tract herein described containing 2.857 acres more or less, EXCEPTING therefrom as much of the following described right-of-way contained within the foregoing 2.857 acre tract and conveying the right to use with others, as a means of ingress and egress, the following described right-of-way, to-wit:

10.00 feet on each side of the following described center line:

Beginning at a point in the center of the Childs Road No. 848 that is North 1205.22 feet distant and West 961.17 feet distant from an iron pipe at the southeast corner of the Southwest one-quarter of the Northeast one-quarter of said Section 20; from said beginning point thence South 2° 02' 30" West 270.95 feet; thence South 59° 44' East 343.90 feet to the most northerly corner of the heretofore 2.857 acre tract; thence, continuing South 59° 44' East 369.60 feet for a terminus.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before 19

WITNESS my hand this day of 19

PERMIT

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.036 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Tualatin River

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is April 23, 1951

Actual construction work shall begin on or before November 16, 1952 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1953

Complete application of the water to the proposed use shall be made on or before

October 1, 1954

WITNESS my hand this 16th day of November 19 51

Chas E. Stricklin
STATE ENGINEER
