Onni Puustinen
(Signature of applicant)

Remarks: This project, abandoned by Onni Puustinen, was completed and brush cleared from site after abandonment by Onni Puustinen, and is now becoming neutralized to the extent that I believe planting of trout and raising same may be done successfully.

Permit was not applied for sooner as fungus appeared too much in evidence, due to rotting vegetation and brush, to suppose that a planting of trout would be successful. Hence time was allowed to wash and neutralize fish pond.

It has been decided that there will be no diversion or use of this water for irrigation, or other use other than a fish pond.
