

APPLICATION FOR PERMIT

To appropriate the Public Waters of the State of Oregon

I, Moller's Nursery of Fairview Oregon State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is from seepage & springs in Sec. 34, a tributary of Fairview Lake. Proposed Reservoir and Un-named creek originating (Name of stream)

2. The amount of water which the applicant intends to apply to beneficial use is 0.0125 (1/80th) Per Acre cubic feet per second. (If water is to be used from more than one source, give quantity from each)

**3. The use to which the water is to be applied is Irrigation (Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located 90 ft. East from the S.W. corner of Tract 12 Wymore addition in the N.W. 1 of the N.W. 1 Section 34 T.1 N., R.3. E. (Section or subdivision) (If preferable, give distance and bearing to section corner)

being within the N.W. 1 of Sec. 34, Tp. 7. S., R. 3. East, W. M., in the county of Multnomah (Give smallest legal subdivision) (N. or S.) (E. or W.)

5. The (Main ditch, canal or pipe line) to be (Miles or feet) in length, terminating in the (Smallest legal subdivision) of Sec. (N. or S.) R. W. M., the proposed location being shown throughout on the accompanying map. (E. or W.)

DESCRIPTION OF WORKS

Diversion Works--

6. (a) Height of dam 4 feet, length on top 10 feet, length at bottom 10 feet; material to be used and character of construction Concrete. (Loose rock, concrete, masonry, etc.)

(b) Description of headgate (Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description 50 Gal. per minute centrifugal pumped by 5 H.P. Gasoline engine, lifting water eight feet and distributing over land by means of Wade Rain irrigation system, through eight - 5 gal per minute sprinkler heads. (Size and type of engine or motor to be used, total head water to be lifted, etc.) (Size and type of pump)

*A different form of application is provided where storage works are contemplated. **Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

8. Location of area to be irrigated, or place of use

Township	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
T.1.N	R.3 E	34	Tracts 9, 10, 11 & W. 121 feet of 12 Wymore addition	8 acres
"	"	"	NW 1/4 NW 1/4	

(If more space required, attach separate sheet)

(a) Character of soil Silt Loam
 (b) Kind of crops raised Nursery Stock (Trees-Shrubs-Evergreens)

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower.
 (b) Quantity of water to be used for power sec. ft.
 (c) Total fall to be utilized feet.
 (d) The nature of the works by means of which the power is to be developed
 (e) Such works to be located in of Sec.

Tp., R., W. M.

(f) Is water to be returned to any stream?
 (g) If so, name stream and locate point of return
, Sec., Tp., R. W. M.
 (h) The use to which power is to be applied is
 (i) The nature of the mines to be served

Municipal or Domestic Supply—

10. (a) To supply the city of
..... County, having a present population of
(Name of) and an estimated population of in 19.....

(b) If for domestic use state number of families to be supplied

(Answer questions 11, 12, 13, and 14 in all cases)

- 11. Estimated cost of proposed works, \$ 575.00
- 12. Construction work will begin on or before Soon as permit granted
- 13. Construction work will be completed on or before 30 days after permit granted
- 14. The water will be completely applied to the proposed use on or before 30 days after permit

Moller's Nursery
(Signature of applicant)

By *Mehin H Moller*

Remarks: The un-named creek mentioned in this application cuts across the S.W. 121 feet of the West side of Tract 12 in W. more position. This leaves a small triangular piece of land, which by excavating and carrying the creek up at the North end, just before it runs across the property line, could be developed into a small reservoir, which would store and hold water for irrigation purposes. This creek runs quite heavy during the winter & spring months, however it would not be adequate without a reservoir storage, during the months of July-August & September. The creek bed is appx. 5 feet below the ground level so that there is no need to build a high dam. During the Winter months the gates in the proposed outlet would be opened, allowing the creek to flow naturally, and the reservoir to be drained. The type of soil is such that it is more or less sub-irrigated, and continuous irrigation over 1-2 hours is not required for the crops grown. Only frequent over-irrigation during the months of July-August & September is required and then for perhaps from 1 to 2 hours at a setting.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before, 19

WITNESS my hand this day of, 19

PERMIT

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.10 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from unnamed creek and reservoir to be constructed under Application No. R-1111, Permit No. R-1226

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/10th of one cubic foot per second or its equivalent for each acre irrigated from direct flow and shall be limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year from direct flow and storage from reservoir to be constructed under Permit No. R-1226,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is 12/21/51

Actual construction work shall begin on or before 12/21/51 and shall thereafter be prosecuted with reasonable diligence and be completed on or before 12/21/51

Complete application of the water to the proposed use shall be made on or before 12/21/51

WITNESS my hand this 28th day of June 1951

Chas. E. Spicklin
STATE ENGINEER

Permits for power development are subject to the payment of annual fees as provided in sections 1 and 2, chapter 76, Oregon Laws 1933.
