

APPLICATION FOR PERMIT

To appropriate the Public Waters of the State of Oregon

I, Fred H. Hawkins (Name of applicant) of Route 1 box 92, Ontario (Mailing address) State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is waste water from two canyons above my property, a tributary of Malheur River

2. The amount of water which the applicant intends to apply to beneficial use is three acre feet per acre cubic feet per second

\*\*3. The use to which the water is to be applied is irrigation

4. The point of diversion is located 40 ft. N. and 70 ft. E. from the corner of common to sections 21, 26, 27 and 28, Township 18, South, Range 46, E.W.M. and also additional point of diversion being 500' north of same corner

being within the southwest quarter of southwest of Sec. 22, Tp. 18 S. R. 46 E. W. M. in the county of Malheur

5. The main ditch, canal or pipe line to be 1020 feet in length, terminating in the ... of Sec. 22, Tp. 18 S. R. 46 E. W. M., the proposed location being shown throughout on the accompanying map.

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam 4' feet, length on top 24' feet, length at bottom 14' feet; material to be used and character of construction earth and wooden spillway

(b) Description of headgate timber

(c) If water is to be pumped give general description

\*A different form of application is provided where storage works are contemplated. \*\*Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) 3 feet; width on bottom 1 1/2 feet; depth of water 0 feet; grade 6 feet fall per one thousand feet.

(b) At one-fourth miles from headgate: width on top (at water line) 3 1/2 feet; width on bottom 1 1/2 feet; depth of water 1 feet; grade 6 feet fall per one thousand feet.

(c) Length of pipe, ..... ft.; size at intake, ..... in.; size at ..... ft. from intake ..... in.; size at place of use ..... in.; difference in elevation between intake and place of use, ..... ft. Is grade uniform? ..... Estimated capacity, ..... sec. ft.

8. Location of area to be irrigated, or place of use

Township	Range	Section	Forty-acre Tract	Number Acres To Be Irrigated
18 S	46	22	N 1/2 SW 4	10.5

(If more space required, attach separate sheet)

(a) Character of soil ..... loam

(b) Kind of crops raised ..... Hay, grain & pasture

Power or Mining Purposes—

9. (a) Total amount of power to be developed ..... theoretical horsepower.

(b) Quantity of water to be used for power ..... sec. ft.

(c) Total fall to be utilized ..... (Head) ..... feet.

(d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in ..... of Sec

Tp. (No N or S) ..... R. (No E or W) ..... W. M.

(f) Is water to be returned to any stream? ..... (Yes or No)

(g) If so, name stream and locate point of return

..... Sec. .... Tp. (No N or S) ..... R. (No E or W) ..... W. M.

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

**Municipal or Domestic Supply—**

10. (a) To supply the city of .....  
..... County, having a present population of .....  
(Name of) and an estimated population of ..... in 19.....

(b) If for domestic use state number of families to be supplied .....

(Answer questions 11, 12, 13, and 14 in all cases)

- 11. Estimated cost of proposed works, \$ 1,000.00 .....
- 12. Construction work will begin on or before ..... all completed .....
- 13. Construction work will be completed on or before .....
- 14. The water will be completely applied to the proposed use on or before .....  
now being applied beneficially .....

*Fred E. Hawkins*  
(Signature of applicant)

Remarks: There are two canyons located in sections 27 and 28, Township  
18, South, Range 46 W. N. W. which drains upper irrigated lands, a  
waste  
great amount of water comes down these two canyons and I have a  
ditch across one and a short ditch in other into which all the  
waste water runs. The United States Government delivers my  
water into one of these canyons and above my ditch. I take all  
the water, part is waste and part from the Owyhee Irrigation Project  
and run it along the west side of the ditch, and onto my land. I  
propose to appropriate the waste water coming down these two canyons.

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying  
maps and data, and return the same for .....

In order to retain its priority, this application must be returned to the State Engineer, with correc-  
tions on or before ..... 194.....

WITNESS my hand this ..... day of ....., 194.....

STATE ENGINEER

PERMIT

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.253 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from

The use to which this water is to be applied is Irrigation (supplemental)

If for irrigation, this appropriation shall be limited to 1/2 inch of one cubic foot per second for the equivalent for each acre irrigated and shall not exceed the amount of water diverted or not to exceed 3 inches above the ground surface at the point of diversion or less, and shall be subject to the same rotation system as may be ordered by the proper state officer, and shall be subject to the same rotation system as may be ordered by the proper state officer, provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is July 13, 1951

Actual construction work shall begin on or before March 31, 1952 and shall thereafter be prosecuted with reasonable diligence and be completed on or before

Complete application of the water to the proposed use shall be made on or before

WITNESS my hand this 13th day of July

Chas. E. Stricklin  
STATE ENGINEER
